

A Petition to the Legislative Assembly of the Northern Territory To Ban Unconventional Onshore Gas Mining.

To the Honourable Speaker, Chief Minister and Members of the Legislative Assembly,

Unconventional onshore gas mining poses a profusion of risks with catastrophic consequences to the Northern Territory. There is a plethora of both scientific and anecdotal evidence that 'fracking' causes water contamination, water depletion, air pollution, earthquakes, noise pollution, traffic issues, social issues, health issues, and releases climate changing greenhouse gases. It will negatively impact tourism, agriculture, horticulture, aquaculture, and everyday life. We can live without gas but we can't live without clean air and water.

We, the undersigned citizens of the Northern Territory, do respectfully demand that unconventional gas mining (fracking) be banned in the Northern Territory.

Please accept this petition on behalf of all the signatories. Your petitioners do humbly pray that the Legislative Assembly of the Northern Territory take action and ban fracking immediately.

Principle Signatory:

To the Speaker, Chief Minister and Members of the Legislative Assembly,

Unconventional onshore gas mining poses a profusion of risks with catastrophic consequences to the Northern Territory. There is a plethora of both scientific and anecdotal evidence that 'fracking' causes water contamination, water depletion, air pollution, earthquakes, noise pollution, traffic issues, social issues, health issues, and releases climate changing greenhouse gases. It will negatively impact tourism, agriculture, horticulture, aquaculture, and everyday life. We can live without gas but we can't live without clean air and water.

We, the undersigned citizens of the Northern Territory, do respectfully demand that unconventional gas mining (fracking) be banned in the Northern Territory.

[illegible]

A Petition to the Legislative Assembly of the Northern Territory
To Ban Unconventional Onshore Gas Mining.

To the Speaker, Chief Minister and Members of the Legislative Assembly,

Unconventional onshore gas mining poses a profusion of risks with catastrophic consequences to the Northern Territory. There is a plethora of both scientific and anecdotal evidence that 'fracking' causes water contamination, water depletion, air pollution, earthquakes, noise pollution, traffic issues, social issues, health issues, and releases climate changing greenhouse gases.
