**To:** fracking inquiry  
**Subject:** NT onshore gas developments

I agree with Martin Ferguson's view in regards NT onshore gas developments. He has a hope the Northern Territory seizes the opportunity for supporting and promoting a Territory gas industry that co-exists with pastoralism, agriculture, tourism and other important industries.

My personal view is offered subsequent to me considering excerpts of a speech given by Martin Ferguson to the SEAAOC conference in Darwin on Wednesday 16 August 2017.
