Dear inquiry

At what stage do u stop taking a big business attitude toward australian people.

The territory may include areas of the most remote country on earth.

It also includes some of the most vital.

Mataranka as an example.

Australians do not need to have their ground water ruined. The land shattered.

Skyline gone.

Enough

They want the gas cause its cheap to get out compared to ocean drilling.

Screw everybody in the process.

You must not let this happen.

No gas.

No gas.

No gas

Its all over the country.

Wanna stay in power?

Stop whats happening
