Subject: Re: Is the global spike in methane emissions caused by the natural gas industry or animal agriculture?

---

Dear [REDACTED]

At the bottom of the document is the link to Professor Howarth's video presentation (about 28minutes). I think it is worth watching for more detailed explanation. If it is possible could both the document and video be made official submissions for this or the next round?

thank you

Geralyn McCarron

Subject: Is the global spike in methane emissions caused by the natural gas industry or animal agriculture?

Dear [REDACTED]

I would appreciate if you could bring this recent document "Is the global spike in methane emissions caused by the natural gas industry or animal agriculture?" to the attention of Justice Pepper and the task force. It is written by Professor Robert Howarth from the Methane Project at Cornell University.

best wishes

Geralyn McCarron
