VIOLATION_CODE
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
201A - Failure to have permit on site during drilling
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201A - Failure to have permit on site during drilling
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
78.56(d) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to remove or fill pit within 9 months after completion of drilling or in accordance with extension granted by the Department without a Clean Streams Law permit or ot
OGA3259(2I) - Conducting a drilling or production activity that is contrary to the 2012 Oil and Gas Act, 25 Pa. Code Chapter 78, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105IMP - Failure to implement Encroachment Plan
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.

78.56(a)_3 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to have pits or tanks reasonably protected from unauthorized acts of third parties.

78.56(a)_3 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to have pits or tanks reasonably protected from unauthorized acts of third parties.

78.56(a)_3 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to have pits or tanks reasonably protected from unauthorized acts of third parties.

78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing

102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec

78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec

78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa

78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa

78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa

78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
OGA 3220(A) - Failure to plug the well upon abandoning it.
105.11 - Person constructed, operated, maintained, modified, enlarged or abandoned a water obstruction or encroachment but failed to obtain Chapter 105 permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
207B - Failure to case and cement to prevent migrations into fresh groundwater
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.65(1)* - Rat hole not filled

78.65(1)* - Rat hole not filled
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(1)* - Rat hole not filled
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
301UNPMTIW - Industrial waste was discharged without permit.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
691.402 - Potential to pollute waters of the Commonwealth
6018.301 - Residual Waste is mismanaged.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
6018.610 8II - Unlawful transfer of RSW
6018.301 - Residual Waste is mismanaged.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
201A - Failure to have permit on site during drilling
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
201E - Failure to comply with terms and conditions of permit
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
105.46 - Failure to implement E&S plan approved with 105 Permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.33POLLINC - Pollution incident was not reported to DEP.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34(A) - ACTIVITIES UTILIZING POLLUTANTS - Failure to take necessary measures to prevent the substances from directly or indirectly reaching waters of this Commonwealth, through accident, carelessness, maliciousness, hazards of weathe
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
105.51 - OPERATION AND MAINTENANCE - Permittee or owner of a water obstruction or encroachment failed to operate and maintain the facility and appurtenant structures in a safe condition in accordance with permit terms and conditions.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
105.449 - COMPLIANCE WITH PERMIT CONDITIONS, REGULATIONS AND LAWS – Person or permittee failed to comply with the general permit terms and conditions while constructing, maintaining, modifying, enlarging or abandoning a water o
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
105.449 - COMPLIANCE WITH PERMIT CONDITIONS, REGULATIONS AND LAWS – Person or permittee failed to comply with the general permit terms and conditions while constructing, maintaining, modifying, enlarging or abandoning a water o
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.56(a)2 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct, and maintain at least 2 feet of freeboard in a pit or open top tank.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

78.66(b) - REPORTING RELEASES - Owner or operator failed to report a reportable release of brine on or into the ground at the well site within 2 hours after detecting or discovering the releases.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.94(A) - PLUGGING – WELLS IN NONCOAL AREAS – SURFACE CASING IS NOT CEMENTED OR NOT PRESENT - Owner or operator failed to follow requirements or other method approved by the Department to plug a well, where the surfac
78.94(A) - PLUGGING – WELLS IN NONCOAL AREAS – SURFACE CASING IS NOT CEMENTED OR NOT PRESENT - Owner or operator failed to follow requirements or other method approved by the Department to plug a well, where the surfac
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.56(a)2 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct, and maintain at least 2 feet of freeboard in a pit or open top tank.
78.95(A) - PLUGGING – WELLS IN NONCOAL AREAS – SURFACE CASING IS CEMENTED – Owner or operator failed to follow requirements or other method approved by the Department to plug a well, where the surface casing is cemented anc
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result
78.66(b) - REPORTING RELEASES - Owner or operator failed to report a reportable release of brine on or into the ground at the well site within 2 hours after detecting or discovering the releases.
78.95(A) - PLUGGING – WELLS IN NONCOAL AREAS – SURFACE CASING IS CEMENTED – Owner or operator failed to follow requirements or other method approved by the Department to plug a well, where the surface casing is cemented anc
78.95(A) - PLUGGING – WELLS IN NONCOAL AREAS – SURFACE CASING IS CEMENTED – Owner or operator failed to follow requirements or other method approved by the Department to plug a well, where the surface casing is cemented anc
78.94(A) - PLUGGING – WELLS IN NONCOAL AREAS – SURFACE CASING IS NOT CEMENTED OR NOT PRESENT - Owner or operator failed to follow requirements or other method approved by the Department to plug a well, where the surfac
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.94(A) - PLUGGING – WELLS IN NONCOAL AREAS – SURFACE CASING IS NOT CEMENTED OR NOT PRESENT - Owner or operator failed to follow requirements or other method approved by the Department to plug a well, where the surfac
78.94(A) - PLUGGING – WELLS IN NONCOAL AREAS – SURFACE CASING IS NOT CEMENTED OR NOT PRESENT - Owner or operator failed to follow requirements or other method approved by the Department to plug a well, where the surfac
78.95(A) - PLUGGING – WELLS IN NONCOAL AREAS – SURFACE CASING IS CEMENTED – Owner or operator failed to follow requirements or other method approved by the Department to plug a well, where the surface casing is cemented anc
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
105.46 - Failure to implement E&S plan approved with 105 Permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.65(1)* - Rat hole not filled
78.65(1)* - Rat hole not filled
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
208A - Failure to restore a water supply affected by pollution or diminution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(1)* - Rat hole not filled
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

78.85 - Inadequate, insufficient, and/or improperly installed cement
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105MAINT - Failure to maintain encroachment
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
208A - Failure to restore a water supply affected by pollution or diminution
208A - Failure to restore a water supply affected by pollution or diminution
208A - Failure to restore a water supply affected by pollution or diminution
208A - Failure to restore a water supply affected by pollution or diminution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.

402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.

206D - Failure to restore site w/in 9 months of plugging well

206D - Failure to restore site w/in 9 months of plugging well
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.35IMPOUND - Adequate impoundment freeboard was not maintained.
91.35IMPOUND - Adequate impoundment freeboard was not maintained.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
208A - Failure to restore a water supply affected by pollution or diminution
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
208A - Failure to restore a water supply affected by pollution or diminution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
OGA 3217(A) - Failure to control and dispose of brines produced from the drilling, alteration or operation of a well consistent with the Clean Streams Law.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.66(b) - REPORTING RELEASES - Owner or operator failed to report a reportable release of brine on or into the ground at the well site within 2 hours after detecting or discovering the releases.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
208A - Failure to restore a water supply affected by pollution or diminution
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
201A - Failure to have permit on site during drilling
201A - Failure to have permit on site during drilling
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201A - Failure to have permit on site during drilling
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(1)* - Rat hole not filled
91.35IMPOUND - Adequate impoundment freeboard not maintained.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402611 - Failure to meet effluent limits of permit
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402611 - Failure to meet effluent limits of permit
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
92.51CONVHI - Effluent limits for Conventional pollutant(s) were violated.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105.46 - Failure to implement E&S plan approved with 105 Permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

201E - Failure to comply with terms and conditions of permit

201E - Failure to comply with terms and conditions of permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.35IMPOUND - Adequate impoundment freeboard not maintained.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.74* - Hazardous well venting
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.

201A - Failure to have permit on site during drilling
691.402WPP - Site conditions present a potential for pollution to waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

207B - Failure to case and cement to prevent migrations into fresh groundwater
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
691.402WPP - Site conditions present a potential for pollution to waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
207B - Failure to case and cement to prevent migrations into fresh groundwater
207B - Failure to case and cement to prevent migrations into fresh groundwater
207B - Failure to case and cement to prevent migrations into fresh groundwater
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.65(1)* - Rat hole not filled
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(1)* - Rat hole not filled
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.65(1)* - Rat hole not filled
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
78.65(1)* - Rat hole not filled
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.65(1)* - Rat hole not filled
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth

CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.

78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.74* - Hazardous well venting
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.51(a) - PROTECTION OF WATER SUPPLIES - Operator failed to restore or replace a private or public water supply affected by pollution or diminution with an alternate source of water adequate in quantity and quality for the purposes served by
OGA 3218(A) - Failure to restore or replace a public or private water supply affected by a well operator.
OGA 3218(A) - Failure to restore or replace a public or private water supply affected by a well operator.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.
105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
102.8(m)1 - PCSM REQUIREMENTS – LONG TERM OPERATION AND MAINTENANCE REQUIREMENTS – Permittee or co-permittee failed to be responsible for long term O & M of PCSM BMPs and no different person was identified on the NO
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.74* - Hazardous well venting

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.51(A)* - Failure to restore or replace an impacted water supply.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

OGA 3216(A) - Failure to restore disturbed land surface of a well site.
78.51(H)* - Failure to report receipt of notice from a landowner, water purveyor or affected person that a water supply has been affected by pollution or diminution, to the Department within 24 hours of receiving the notice.
78.51(H)* - Failure to report receipt of notice from a landowner, water purveyor or affected person that a water supply has been affected by pollution or diminution, to the Department within 24 hours of receiving the notice.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

78a85(a)5 - CASING AND CEMENTING - CEMENT STANDARDS - Operator failed prevent gas flow in the annulus and use gas block additives and low fluid loss slurries in areas of known shallow gas producing zones.

78a86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

201A - Failure to have permit on site during drilling

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

105NOPERMIT - Encroachment without Permit or Waiver

105NOPERMIT - Encroachment without Permit or Waiver

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
208A - Failure to restore a water supply affected by pollution or diminution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
303MAXPRESS - Exceeding maximum allowable storage pressure
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.51(H)* - Failure to report receipt of notice from a landowner, water purveyor or affected person that a water supply has been affected by pollution or diminution, to the Department within 24 hours of receiving the notice.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.62(a)15 - DISPOSAL OF RESIDUAL WASTE - PITS - Owner or operator failed to fold over or add additional liner to completely cover and shape waste and to prevent water from infiltrating pit or being confined above the liner.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3220(A) - Failure to plug the well upon abandoning it.

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
209BOP - Inadequate or improperly installed BOP, other safety devices, or no certified BOP operator
78.74* - Hazardous well venting
78.74* - Hazardous well venting
209BOP - Inadequate or improperly installed BOP, other safety devices, or no certified BOP operator
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.74* - Hazardous well venting

105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
691.402WPP - Site conditions present a potential for pollution to waters of the Commonwealth.
691.402WPP - Site conditions present a potential for pollution to waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

691.402WPP - Site conditions present a potential for pollution to waters of the Commonwealth.

691.402WPP - Site conditions present a potential for pollution to waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
301UNPMTIW - Industrial waste was discharged without permit.
301UNPMTIW - Industrial waste was discharged without permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
301UNPMTIW - Industrial waste was discharged without permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301UNPMTIW - Industrial waste was discharged without permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
301UNPMTIW - Industrial waste was discharged without permit.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301UNPMTIW - Industrial waste was discharged without permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
691.402WPP - Site conditions present a potential for pollution to waters of the Commonwealth.
301UNPMTIW - Industrial waste was discharged without permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.44 - Permittee has failed to perform work according to specifications as approved.
105.11 - Person constructed, operated, maintained, modified, enlarged or abandoned a water obstruction or encroachment but failed to obtain Chapter 105 permit.
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
301UNPMTIW - Industrial waste was discharged without permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
301UNPMTIW - Industrial waste was discharged without permit.
301UNPMTIW - Industrial waste was discharged without permit.
105.11 - Person constructed, operated, maintained, modified, enlarged or abandoned a water obstruction or encroachment but failed to obtain Chapter 105 permit.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
691.402WPP - Site conditions present a potential for pollution to waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
691.611OBST - Persons hindered, obstructed, prevented or interfered with the Department or its personnelin perofrming duties.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105.11 - Person constructed, operated, maintained, modified, enlarged or abandoned a water obstruction or encroachment but failed to obtain Chapter 105 permit.
691.611OBST - Persons hindered, obstructed, prevented or interfered with the Department or its personnelin perofrming duties.
105.11 - Person constructed, operated, maintained, modified, enlarged or abandoned a water obstruction or encroachment but failed to obtain Chapter 105 permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
691.611OBST - Persons hindered, obstructed, prevented or interfered with the Department or its personnelin perofrming duties.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301UNPMTIW - Industrial waste was discharged without permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
301UNPMTIW - Industrial waste was discharged without permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
201A - Failure to have permit on site during drilling
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301UNPMTIW - Industrial waste was discharged without permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
301UNPMTIW - Industrial waste was discharged without permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
207B - Failure to case and cement to prevent migrations into fresh groundwater
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
207B - Failure to case and cement to prevent migrations into fresh groundwater
207B - Failure to case and cement to prevent migrations into fresh groundwater

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
78.65(1)* - Rat hole not filled
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.65(1)* - Rat hole not filled
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.65(1)* - Rat hole not filled
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.51(A)* - Failure to restore or replace an impacted water supply.
78.51(A)* - Failure to restore or replace an impacted water supply.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
691.611OBST - Persons hindered, obstructed, prevented or interfered with the Department or its personnelin perofrming duties.
691.611OBST - Persons hindered, obstructed, prevented or interfered with the Department or its personnelin perofrming duties.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

691.401WPD - Failure to prevent sediment or other pollutant discharge into waters of the Commonwealth.
691.402WPP - Site conditions present a potential for pollution to waters of the Commonwealth.
105.46 - Permittee has failed to implement Erosion and Sedimentation control plan.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
206D - Failure to restore site w/in 9 months of plugging well
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
78.74* - Hazardous well venting
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
201E - Failure to comply with terms and conditions of permit
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

78.51(H)* - Failure to report receipt of notice from a landowner, water purveyor or affected person that a water supply has been affected by pollution or diminution, to the Department within 24 hours of receiving the notice.

78.51(H)* - Failure to report receipt of notice from a landowner, water purveyor or affected person that a water supply has been affected by pollution or diminution, to the Department within 24 hours of receiving the notice.
6018.301 - Residual Waste is mismanaged.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
6018.301 - Residual Waste is mismanaged.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.85 - Inadequate, insufficient, and/or improperly installed cement

91.33POLLINC - Pollution incident was not reported to DEP.

91.33POLLINC - Pollution incident was not reported to DEP.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
78.85 - Inadequate, insufficient, and/or improperly installed cement

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
78.85 - Inadequate, insufficient, and/or improperly installed cement
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
78.85(a)5 - CASING AND CEMENTING - CEMENT STANDARDS - Operator failed prevent gas flow in the annulus and use gas block additives and low fluid loss slurries in areas of known shallow gas producing zones.
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78.85(a)5 - CASING AND CEMENTING - CEMENT STANDARDS - Operator failed prevent gas flow in the annulus and use gas block additives and low fluid loss slurries in areas of known shallow gas producing zones.
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78.85(a)5 - CASING AND CEMENTING - CEMENT STANDARDS - Operator failed prevent gas flow in the annulus and use gas block additives and low fluid loss slurries in areas of known shallow gas producing zones.
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78.85(a)5 - CASING AND CEMENTING - CEMENT STANDARDS - Operator failed prevent gas flow in the annulus and use gas block additives and low fluid loss slurries in areas of known shallow gas producing zones.
78.86_ - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to plug a well under 25 Pa. Code Sections 78.91 and 78.98 after the defect could not be corrected or an alternate method was not approved by the De
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.85(a)5 - CASING AND CEMENTING - CEMENT STANDARDS - Operator failed prevent gas flow in the annulus and use gas block additives and low fluid loss slurries in areas of known shallow gas producing zones.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.85(a)5 - CASING AND CEMENTING - CEMENT STANDARDS - Operator failed prevent gas flow in the annulus and use gas block additives and low fluid loss slurries in areas of known shallow gas producing zones.
102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.85(a)5 - CASING AND CEMENTING - CEMENT STANDARDS - Operator failed prevent gas flow in the annulus and use gas block additives and low fluid loss slurries in areas of known shallow gas producing zones.

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.89(a) - OPERATING WELLS - GAS MIGRATION RESPONSE - Owner or operator failed to immediately conduct an investigation to determine nature of the incident, assess potential hazards to public health and safety, and mitigate any hazard p
78.89(a) - OPERATING WELLS - GAS MIGRATION RESPONSE - Owner or operator failed to immediately conduct an investigation to determine nature of the incident, assess potential hazards to public health and safety, and mitigate any hazard p
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.74 - VENTING OF GAS - Operator vented gas to the atmosphere that produced a hazard to the public health and safety.
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
105.11 - Person constructed, operated, maintained, modified, enlarged or abandoned a water obstruction or encroachment but failed to obtain Chapter 105 permit.
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
CSL301BYPASS - Industrial waste was discharged without a permit

201E - Failure to comply with terms and conditions of permit
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3258(B) - Failure to provide free and unrestricted access.
OGA 3258(B) - Failure to provide free and unrestricted access.
79.12CW - Insufficent casing, BOP, cement or wait on cement to prevent waste from conservation well.
79.12CW - Insufficent casing, BOP, cement or wait on cement to prevent waste from conservation well.
78.74* - Hazardous well venting
OGA 3219 - Failure to use casing of sufficient strength and other safety devices to prevent blowouts, explosions and fires.
78.74* - Hazardous well venting
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
OGA 3219 - Failure to use casing of sufficient strength and other safety devices to prevent blowouts, explosions and fires.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3220(A) - Failure to plug the well upon abandoning it.

OGA 3216(A) - Failure to restore disturbed land surface of a well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
CSL610 - CSL - Failure to comply with a DEP-issued enforcement order
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.7(c) - PERMIT TERMINATION – Permittee failed to remain in compliance with permit terms and conditions on the project site until receiving written approval of the notice of termination (NOT) from the Department or conservation district.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.7(c) - PERMIT TERMINATION – Permittee failed to remain in compliance with permit terms and conditions on the project site until receiving written approval of the notice of termination (NOT) from the Department or conservation district.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing

102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.46 - Failure to implement E&S plan approved with 105 Permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201A - Failure to have permit on site during drilling
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
201A - Failure to have permit on site during drilling
78.85 - Inadequate, insufficient, and/or improperly installed cement
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301UNPMTIW - Industrial waste was discharged without permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.85 - Inadequate, insufficient, and/or improperly installed cement
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.11 - Person constructed, operated, maintained, modified, enlarged or abandoned a water obstruction or encroachment but failed to obtain Chapter 105 permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301UNPMTIW - Industrial waste was discharged without permit.
91.33POLLINC - Pollution incident was not reported to DEP.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301UNPMTIW - Industrial waste was discharged without permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
301UNPMTIW - Industrial waste was discharged without permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
301UNPMTIW - Industrial waste was discharged without permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301UNPMTIW - Industrial waste was discharged without permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

78.65(1)* - Rat hole not filled
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
207B - Failure to case and cement to prevent migrations into fresh groundwater
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.65(1)* - Rat hole not filled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(1)* - Rat hole not filled
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.65(1)* - Rat hole not filled
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement

CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.65(1)* - Rat hole not filled
78.65(1)* - Rat hole not filled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402611 - Failure to meet effluent limits of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.65(1)* - Rat hole not filled

78.65(1)* - Rat hole not filled

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

OGA 3259(3) - Refuse, obstruct, delay or threaten a DEP agent or employee.

OGA 3259(3) - Refuse, obstruct, delay or threaten a DEP agent or employee.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
6018.301 - Residual Waste is mismanaged.
OGA3218.2(C) - Failure to use containment systems for (1) drilling mud, (2) hydraulic oil, (3) diesel fuel, (4) drilling mud additives, (5) hydraulic fracturing additives, (6) hydraulic fracturing flowback.

78.85 - Inadequate, insufficient, and/or improperly installed cement
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.73(c) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent excessive surface shut-in pressure and surface producing back pressure inside the surface casing or coal protective casing after a we
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

OGA 3216(A) - Failure to restore disturbed land surface of a well site.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

78.66(b) - REPORTING RELEASES - Owner or operator failed to report a reportable release of brine on or into the ground at the well site within 2 hours after detecting or discovering the releases.
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Comm
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.81(a)3 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent pollution or diminution of fresh groundwater.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.81(a)3 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent pollution or diminution of fresh groundwater.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78.81(a)3 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent pollution or diminution of fresh groundwater.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.85(a)5 - CASING AND CEMENTING - CEMENT STANDARDS - Operator failed prevent gas flow in the annulus and use gas block additives and low fluid loss slurries in areas of known shallow gas producing zones.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.85(a)5 - CASING AND CEMENTING - CEMENT STANDARDS - Operator failed prevent gas flow in the annulus and use gas block additives and low fluid loss slurries in areas of known shallow gas producing zones.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.85(a)5 - CASING AND CEMENTING - CEMENT STANDARDS - Operator failed prevent gas flow in the annulus and use gas block additives and low fluid loss slurries in areas of known shallow gas producing zones.

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

91.34(A) - ACTIVITIES UTILIZING POLLUTANTS - Failure to take necessary measures to prevent the substances from directly or indirectly reaching waters of this Commonwealth, through accident, carelessness, maliciousness, hazards of weathe

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

91.34(A) - ACTIVITIES UTILIZING POLLUTANTS - Failure to take necessary measures to prevent the substances from directly or indirectly reaching waters of this Commonwealth, through accident, carelessness, maliciousness, hazards of weathe

91.34(A) - ACTIVITIES UTILIZING POLLUTANTS - Failure to take necessary measures to prevent the substances from directly or indirectly reaching waters of this Commonwealth, through accident, carelessness, maliciousness, hazards of weathe

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result

91.34(A) - ACTIVITIES UTILIZING POLLUTANTS - Failure to take necessary measures to prevent the substances from directly or indirectly reaching waters of this Commonwealth, through accident, carelessness, maliciousness, hazards of weathe

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

91.34(A) - ACTIVITIES UTILIZING POLLUTANTS - Failure to take necessary measures to prevent the substances from directly or indirectly reaching waters of this Commonwealth, through accident, carelessness, maliciousness, hazards of weathe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
92A.3 - FEDERAL NPDES REQUIREMENTS - Discharge of pollutants from a point source into surface waters without NPDES permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

78.51(A)* - Failure to restore or replace an impacted water supply.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402611 - Failure to meet effluent limits of permit
402611 - Failure to meet effluent limits of permit
402611 - Failure to meet effluent limits of permit
402611 - Failure to meet effluent limits of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206D - Failure to restore site w/in 9 months of plugging well
78.125 - Failure to submit UIC Annual Report upon request
OGA 3220(A) - Failure to plug the well upon abandoning it.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
201E - Failure to comply with terms and conditions of permit
401 CSL - Discharge of pollutional material to waters of Commonwealth.
201E - Failure to comply with terms and conditions of permit
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105IMP - Failure to implement Encroachment Plan
105IMP - Failure to implement Encroachment Plan
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.

401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.46 - Failure to implement E&S plan approved with 105 Permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3218(A) - Failure to restore or replace a public or private water supply affected by a well operator.
OGA 3218(A) - Failure to restore or replace a public or private water supply affected by a well operator.

78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.

78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.

78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
78.56(a)2 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct, and maintain at least 2 feet of freeboard in a pit or open top tank.
CSL401 - CSL - Unauthorized, unpermitted discharge of polluting substances to waters of the Commonwealth resulting in pollution
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL401 - CSL - Unauthorized, unpermitted discharge of polluting substances to waters of the Commonwealth resulting in pollution
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.4(b)2 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to develop and implement a required written E & S Plan.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

CSL301 - CSL - Unauthorized, unpermitted discharge of industrial wastes to waters of the Commonwealth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.81(a)1 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to allow for effective control of the well at all times.
78.85(a)3 - CASING AND CEMENTING - CEMENT STANDARDS - Operator failed to contain any pressure from drilling, completion and production with cement while cementing surface or coal protective casing.
78.85(a)3 - CASING AND CEMENTING - CEMENT STANDARDS - Operator failed to contain any pressure from drilling, completion and production with cement while cementing surface or coal protective casing.
78.81(a)1 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to allow for effective control of the well at all times.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
105NOPERMIT - Encroachment without Permit or Waiver
201E - Failure to comply with terms and conditions of permit
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(1)* - Rat hole not filled
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

OGA 3220(A) - Failure to plug the well upon abandoning it.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.61(b)7 - DISPOSAL OF DRILL CUTTINGS - Owner or operator disposed of drill cuttings from above the casing seat, by land application, in quantities which resulted in runoff or caused surface water or groundwater pollution.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
CSL401 - CSL - Unauthorized, unpermitted discharge of polluting substances to waters of the Commonwealth resulting in pollution
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL301 - CSL - Unauthorized, unpermitted discharge of industrial wastes to waters of the Commonwealth
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL301 - CSL - Unauthorized, unpermitted discharge of industrial wastes to waters of the Commonwealth

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

105NOPERMIT - Encroachment without Permit or Waiver

105NOPERMIT - Encroachment without Permit or Waiver

201E - Failure to comply with terms and conditions of permit
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402611 - Failure to meet effluent limits of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402611 - Failure to meet effluent limits of permit
105IMP - Failure to implement Encroachment Plan
105IMP - Failure to implement Encroachment Plan
208A - Failure to restore a water supply affected by pollution or diminution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
208A - Failure to restore a water supply affected by pollution or diminution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
6018.301 - Residual Waste is mismanaged.
6018.301 - Residual Waste is mismanaged.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

105.51 - Permittee has failed to operate or maintain permitted project.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.

105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
201E - Failure to comply with terms and conditions of permit
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
102.5ESCP - Failure to obtain an Erosion and Sediment Control Permit.

402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA3259(2I) - Conducting a drilling or production activity that is contrary to the 2012 Oil and Gas Act, 25 Pa. Code Chapter 78, DEP order, or a term or condition of the well permit.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
105.46 - Failure to implement E&S plan approved with 105 Permit.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
209BOP - Inadequate or improperly installed BOP, other safety devices, or no certified BOP operator
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(1)* - Rat hole not filled
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
201A - Failure to have permit on site during drilling
78.65(1)* - Rat hole not filled
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.65(1)* - Rat hole not filled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206D - Failure to restore site w/in 9 months of plugging well
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105MAINT - Failure to maintain encroachment
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Comm
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.57(c)3ii - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to properly backfill, stabilize and grade pit depression.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
105NOPERMIT - Encroachment without Permit or Waiver
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

105NOPERMIT - Encroachment without Permit or Waiver

105NOPERMIT - Encroachment without Permit or Waiver

105NOPERMIT - Encroachment without Permit or Waiver
201A - Failure to have permit on site during drilling
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34(A)PVNT - Necessary measures were not taken to prevent polluting substances from reaching Waters of the Commonwealth.
91.34(A)PVNT - Necessary measures were not taken to prevent polluting substances from reaching Waters of the Commonwealth.

105NOPERMIT - Encroachment without Permit or Waiver

105NOPERMIT - Encroachment without Permit or Waiver

105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver

105NOPERMIT - Encroachment without Permit or Waiver
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
79.12CW - Insufficent casing, BOP, cement or wait on cement to prevent waste from conservation well.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.

78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

105NOPERMIT - Encroachment without Permit or Waiver

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

105NOPERMIT - Encroachment without Permit or Waiver
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201A - Failure to have permit on site during drilling
201A - Failure to have permit on site during drilling
201A - Failure to have permit on site during drilling
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
209BOP - Inadequate or improperly installed BOP, other safety devices, or no certified BOP operator
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA3259(2I) - Conducting a drilling or production activity that is contrary to the 2012 Oil and Gas Act, 25 Pa. Code Chapter 78, DEP order, or a term or condition of the well permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.66(b) - REPORTING RELEASES - Owner or operator failed to report a reportable release of brine on or into the ground at the well site within 2 hours after detecting or discovering the releases.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
201A - Failure to have permit on site during drilling
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
79.12 - Inadequate casing/cementing in conservation well
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
208A - Failure to restore a water supply affected by pollution or diminution
105NOPERMIT - Encroachment without Permit or Waiver
208A - Failure to restore a water supply affected by pollution or diminution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

402611 - Failure to meet effluent limits of permit
303MAXPRESS - Exceeding maximum allowable storage pressure
78.74* - Hazardous well venting
78.74* - Hazardous well venting
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4IMPBMP - Failure to implement effective Best Management Practices.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.73(c) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent excessive surface shut-in pressure and surface producing back pressure inside the surface casing or coal protective casing after a we
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
208A - Failure to restore a water supply affected by pollution or diminution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA3259(2I) - Conducting a drilling or production activity that is contrary to the 2012 Oil and Gas Act, 25 Pa. Code Chapter 78, DEP order, or a term or condition of the well permit.
OGA3259(2I) - Conducting a drilling or production activity that is contrary to the 2012 Oil and Gas Act, 25 Pa. Code Chapter 78, DEP order, or a term or condition of the well permit.
OGA3259(2I) - Conducting a drilling or production activity that is contrary to the 2012 Oil and Gas Act, 25 Pa. Code Chapter 78, DEP order, or a term or condition of the well permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled

78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.82 - Remove conductor pipe
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
201A - Failure to have permit on site during drilling
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(1)* - Rat hole not filled
78.65(1)* - Rat hole not filled
78.65(1)* - Rat hole not filled
78.65(1)* - Rat hole not filled
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

OGA 3220(A) - Failure to plug the well upon abandoning it.
78.74 - VENTING OF GAS - Operator vented gas to the atmosphere that produced a hazard to the public health and safety.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.74 - VENTING OF GAS - Operator vented gas to the atmosphere that produced a hazard to the public health and safety.
78.74 - VENTING OF GAS - Operator vented gas to the atmosphere that produced a hazard to the public health and safety.
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.74 - VENTING OF GAS - Operator vented gas to the atmosphere that produced a hazard to the public health and safety.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth

78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Comm

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
208A - Failure to restore a water supply affected by pollution or diminution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
91.33POLLINC - Pollution incident was not reported to DEP.

91.33POLLINC - Pollution incident was not reported to DEP.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
6018.301 - Residual Waste is mismanaged.
6018.301 - Residual Waste is mismanaged.
6018.301 - Residual Waste is mismanaged.
6018.301 - Residual Waste is mismanaged.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

691.401WPD - Failure to prevent sediment or other pollutant discharge into waters of the Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
CSL301 - CSL - Unauthorized, unpermitted discharge of industrial wastes to waters of the Commonwealth
OGA 3220(A) - Failure to plug the well upon abandoning it.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing

OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.

OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.56(a)1 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator's temporary containment pit, tank or series of pits and tanks was not constructed and maintained with sufficient capacity to contain all pollutional substances and wastes

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.56(a)1 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator's temporary containment pit, tank or series of pits and tanks was not constructed and maintained with sufficient capacity to contain all pollutional substances and wastes
102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.65(1)* - Rat hole not filled
78.65(1)* - Rat hole not filled
78.65(1)* - Rat hole not filled
78.65(1)* - Rat hole not filled
78.65(1)* - Rat hole not filled
78.65(1)* - Rat hole not filled
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
78.65(1)* - Rat hole not filled
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(1)* - Rat hole not filled
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.51(A)* - Failure to restore or replace an impacted water supply.
78.51(A)* - Failure to restore or replace an impacted water supply.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
78.62(a)16 - DISPOSAL OF RESIDUAL WASTE - PITS - Owner or operator punctured or perforated the pit liner.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78a54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.85 - Inadequate, insufficient, and/or improperly installed cement
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.85 - Inadequate, insufficient, and/or improperly installed cement
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
207B - Failure to case and cement to prevent migrations into fresh groundwater
209BOP - Inadequate or improperly installed BOP, other safety devices, or no certified BOP operator
207B - Failure to case and cement to prevent migrations into fresh groundwater
207B - Failure to case and cement to prevent migrations into fresh groundwater
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
301UNPMTIW - Industrial waste was discharged without permit.

402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.

402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.

301UNPMTIW - Industrial waste was discharged without permit.
209BOP - Inadequate or improperly installed BOP, other safety devices, or no certified BOP operator
209BOP - Inadequate or improperly installed BOP, other safety devices, or no certified BOP operator
78.74* - Hazardous well venting
78.74* - Hazardous well venting
78.74* - Hazardous well venting
209BOP - Inadequate or improperly installed BOP, other safety devices, or no certified BOP operator
209BOP - Inadequate or improperly installed BOP, other safety devices, or no certified BOP operator
78.74* - Hazardous well venting
78.74* - Hazardous well venting
78.74* - Hazardous well venting
209BOP - Inadequate or improperly installed BOP, other safety devices, or no certified BOP operator
209BOP - Inadequate or improperly installed BOP, other safety devices, or no certified BOP operator
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f
401CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit
105.46(a) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – During construction of water obstruction or encroachment, permittee failed to follow the erosion and sediment control plan prepared in accordance with Ch
105.46(a) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – During construction of water obstruction or encroachment, permittee failed to follow the erosion and sediment control plan prepared in accordance with Ch
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
105MAINT - Failure to maintain encroachment
105NOPERMIT - Encroachment without Permit or Waiver
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

401 CSL - Discharge of pollutional material to waters of Commonwealth.
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
201E - Failure to comply with terms and conditions of permit
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.65(1)* - Rat hole not filled
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.51(H)* - Failure to report receipt of notice from a landowner, water purveyor or affected person that a water supply has been affected by pollution or diminution, to the Department within 24 hours of receiving the notice.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
78.66(e) - REPORTING RELEASES - Owner or operator failed to take necessary corrective actions during release to prevent substance from reaching waters of this Commonwealth, recover or remove the released substance, and properly dispose
OGA 3217(A) - Failure to control and dispose of brines produced from the drilling, alteration or operation of a well consistent with the Clean Streams Law.
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground
78.66(e) - REPORTING RELEASES - Owner or operator failed to take necessary corrective actions during release to prevent substance from reaching waters of this Commonwealth, recover or remove the released substance, and properly dispose

CSL301 - CSL - Unauthorized, unpermitted discharge of industrial wastes to waters of the Commonwealth
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.60(a) - DISCHARGE REQUIREMENTS - Operator discharged a substance into waters of the Commonwealth contrary to 25 Pa. Code Chapters 91, 93, 95 and 102, The Clean Streams Law and the 2012 Oil and Gas Act.
78.60(a) - DISCHARGE REQUIREMENTS - Operator discharged a substance into waters of the Commonwealth contrary to 25 Pa. Code Chapters 91, 93, 95 and 102, The Clean Streams Law and the 2012 Oil and Gas Act.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.66(e) - REPORTING RELEASES - Owner or operator failed to take necessary corrective actions during release to prevent substance from reaching waters of this Commonwealth, recover or remove the released substance, and properly dispose

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
OGA3258(A.1) - Drilling commenced without preoperation inspection.

OGA3258(A.1) - Drilling commenced without preoperation inspection.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.83(i) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - For wells where the operator sets and cements casing under 25 Pa. Code Sections 78.73(g) or 78.73(h) and subsequen
78.83(i) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - For wells where the operator sets and cements casing under 25 Pa. Code Sections 78.73(g) or 78.73(h) and subsequen

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
78.65(1) - SITE RESTORATION - Owner or operator failed to properly fill a drill hole or bore hole used to facilitate the drilling of a well before moving the drilling equipment from the well site.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.81(b) - CASING AND CEMENTING - GENERAL PROVISIONS - The operator failed to drill through fresh groundwater zones with diligence and as efficiently as practical to minimize drilling disturbance and commingling of groundwaters.
78.81(b) - CASING AND CEMENTING - GENERAL PROVISIONS - The operator failed to drill through fresh groundwater zones with diligence and as efficiently as practical to minimize drilling disturbance and commingling of groundwaters.
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78.83(g) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to set and cement a coal protective string of casing thru workable coal seams. Failure to install base of
78.83(g) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to set and cement a coal protective string of casing thru workable coal seams. Failure to install base of
78.83(h) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - For wells drilled thru a coal seam(s) where the coal has been removed or when drilled thru a coal pillar, the operator fail
78.83(h) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - For wells drilled thru a coal seam(s) where the coal has been removed or when drilled thru a coal pillar, the operator fail
78.83(d) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to permanently cement the surface casing by placing the cement in the casing and displacing it into the a
78.83(d) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to permanently cement the surface casing by placing the cement in the casing and displacing it into the a
78.83_(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator set surface casing more than 200 feet below the deepest fresh groundwater. Surface casing seat was not se
78.83_(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator set surface casing more than 200 feet below the deepest fresh groundwater. Surface casing seat was not se
78.83(g) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to set and cement a coal protective string of casing thru workable coal seams. Failure to install base of
78.81(b) - CASING AND CEMENTING - GENERAL PROVISIONS - The operator failed to drill through fresh groundwater zones with diligence and as efficiently as practical to minimize drilling disturbance and commingling of groundwaters.
78.83(h) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - For wells drilled thru a coal seam(s) where the coal has been removed or when drilled thru a coal pillar, the operator fail
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.

CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
78.66(b) - REPORTING RELEASES - Owner or operator failed to report a reportable release of brine on or into the ground at the well site within 2 hours after detecting or discovering the releases.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.

CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.

CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.

105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.22(a)1 - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to remove temporary E & S BMPs once permanent stabilization had been established.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
OGA 3220(A) - Failure to plug the well upon abandoning it.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
SWMA 501 - Unlawful use, or continued use, of land as a solid waste processing, storage, treatment, or disposal area without first obtaining a permit from the Department as required by the SWMA.
78A57(A) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used open top structure(s) to store brine and other fluids produced during operation of the well.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

OGA3218.2(D) - Containment system(s) does not meet 110% capacity requirement.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
206D - Failure to restore site w/in 9 months of plugging well
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
105.449 - COMPLIANCE WITH PERMIT CONDITIONS, REGULATIONS AND LAWS – Person or permittee failed to comply with the general permit terms and conditions while constructing, maintaining, modifying, enlarging or abandoning a water o
105.46(a) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – During construction of water obstruction or encroachment, permittee failed to follow the erosion and sediment control plan prepared in accordance with Ch
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.65(1)* - Rat hole not filled
78.65(1)* - Rat hole not filled
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.65(1)* - Rat hole not filled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.65(1)* - Rat hole not filled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
209CASING - Using inadequate casing
301UNPMTIW - Industrial waste was discharged without permit.

301UNPMTIW - Industrial waste was discharged without permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
301UNPMTIW - Industrial waste was discharged without permit.
301UNPMTIW - Industrial waste was discharged without permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

401CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
691.402 - Potential to pollute waters of the Commonwealth
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

6018.610-2 - Person or municipality operates a facility without a permit.
6018.301 - Residual Waste is mismanaged.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
201E - Failure to comply with terms and conditions of permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA 3220(A) - Failure to plug the well upon abandoning it.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.

78.51(H)* - Failure to report receipt of notice from a landowner, water purveyor or affected person that a water supply has been affected by pollution or diminution, to the Department within 24 hours of receiving the notice.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
OGA 3220(A) - Failure to plug the well upon abandoning it.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.

78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
OGA 3220(A) - Failure to plug the well upon abandoning it.

OGA 3220(A) - Failure to plug the well upon abandoning it.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
102.22(a)1 - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to remove temporary E & S BMPs once permanent stabilization had been established.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
OGA 3220(A) - Failure to plug the well upon abandoning it.

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105IMP - Failure to implement Encroachment Plan
105IMP - Failure to implement Encroachment Plan
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)2 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to develop and implement a required written E & S Plan.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
OGA 3220(A) - Failure to plug the well upon abandoning it.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.

206D - Failure to restore site w/in 9 months of plugging well
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

78.74* - Hazardous well venting
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
691.401WPD - Failure to prevent sediment or other pollutant discharge into waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
208A - Failure to restore a water supply affected by pollution or diminution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.

OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105IMP - Failure to implement Encroachment Plan
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105IMP - Failure to implement Encroachment Plan
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105IMP - Failure to implement Encroachment Plan
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver

201E - Failure to comply with terms and conditions of permit
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.46 - Failure to implement E&S plan approved with 105 Permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.46 - Failure to implement E&S plan approved with 105 Permit.
105.46 - Failure to implement E&S plan approved with 105 Permit.
105.46 - Failure to implement E&S plan approved with 105 Permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
402611 - Failure to meet effluent limits of permit
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.74 - VENTING OF GAS - Operator vented gas to the atmosphere that produced a hazard to the public health and safety.
78.74 - VENTING OF GAS - Operator vented gas to the atmosphere that produced a hazard to the public health and safety.
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.74 - VENTING OF GAS - Operator vented gas to the atmosphere that produced a hazard to the public health and safety.
78.74 - VENTING OF GAS - Operator vented gas to the atmosphere that produced a hazard to the public health and safety.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.85 - Inadequate, insufficient, and/or improperly installed cement
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
105.46 - Failure to implement E&S plan approved with 105 Permit.
105NOPERMIT - Encroachment without Permit or Waiver
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.51(H)* - Failure to report receipt of notice from a landowner, water purveyor or affected person that a water supply has been affected by pollution or diminution, to the Department within 24 hours of receiving the notice.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
OGA3259(2I) - Conducting a drilling or production activity that is contrary to the 2012 Oil and Gas Act, 25 Pa. Code Chapter 78, DEP order, or a term or condition of the well permit.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
OGA 3220(A) - Failure to plug the well upon abandoning it.

78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled

78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.62(a)9 - DISPOSAL OF RESIDUAL WASTE - PITS - Owner or operator disposed of residual waste, in a pit, that was not designed, constructed and maintained to be structurally sound and impermeable.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.

78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a)_2 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to immediately take the necessary measures to ensure the structural stability of the pit or tank, prevent spills and restore the 2 feet of freeboard.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA3259(2I) - Conducting a drilling or production activity that is contrary to the 2012 Oil and Gas Act, 25 Pa. Code Chapter 78, DEP order, or a term or condition of the well permit.
OGA3259(2I) - Conducting a drilling or production activity that is contrary to the 2012 Oil and Gas Act, 25 Pa. Code Chapter 78, DEP order, or a term or condition of the well permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA3259(2I) - Conducting a drilling or production activity that is contrary to the 2012 Oil and Gas Act, 25 Pa. Code Chapter 78, DEP order, or a term or condition of the well permit.
OGA3259(2I) - Conducting a drilling or production activity that is contrary to the 2012 Oil and Gas Act, 25 Pa. Code Chapter 78, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
105.171 - Failure to maintain the opening of culvert or bridge from becoming obstructed more than 10%.
105.171 - Failure to maintain the opening of culvert or bridge from becoming obstructed more than 10%.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105MAINT - Failure to maintain encroachment
105MAINT - Failure to maintain encroachment

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec

OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
201E - Failure to comply with terms and conditions of permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
105.51 - OPERATION AND MAINTENANCE - Permittee or owner of a water obstruction or encroachment failed to operate and maintain the facility and appurtenant structures in a safe condition in accordance with permit terms and conditions.
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.60(b)1 - DISCHARGE REQUIREMENTS - Owner or operator land applied tophole water or precipitation water from a pit that contained additives, drilling muds, pollutional materials or drilling fluids without approval by the Department.
102.8(k) - PCSM REQUIREMENTS – LICENSED PROFESSIONAL OVERSIGHT – A licensed professional or a designee was not present onsite during critical stages of implementation of the approved PCSM Plan.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.74* - Hazardous well venting
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201A - Failure to have permit on site during drilling

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.85 - Inadequate, insufficient, and/or improperly installed cement
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
209BOP - Inadequate or improperly installed BOP, other safety devices, or no certified BOP operator
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
209BOP - Inadequate or improperly installed BOP, other safety devices, or no certified BOP operator
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
208A - Failure to restore a water supply affected by pollution or diminution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
78.62(a)7 - DISPOSAL OF RESIDUAL WASTE - PITS - Owner or operator disposed of residual waste, in a pit, within 200 feet of a water supply.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.22(a)1 - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to remove temporary E & S BMPs once permanent stabilization had been established.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
102.22(a)1 - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to remove temporary E & S BMPs once permanent stabilization had been established.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(1)* - Rat hole not filled
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

78.83__(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - The surface hole was not drilled using air, freshwater or freshwater-based drilling fluid.
78.83__(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - The surface hole was not drilled using air, freshwater or freshwater-based drilling fluid.
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.125 - Failure to submit UIC Annual Report upon request
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.125 - Failure to submit UIC Annual Report upon request
78.125 - Failure to submit UIC Annual Report upon request
78.125 - Failure to submit UIC Annual Report upon request
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.125 - Failure to submit UIC Annual Report upon request
78.125 - Failure to submit UIC Annual Report upon request
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.125 - Failure to submit UIC Annual Report upon request
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.125 - Failure to submit UIC Annual Report upon request
78.125 - Failure to submit UIC Annual Report upon request
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.125 - Failure to submit UIC Annual Report upon request
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.125 - Failure to submit UIC Annual Report upon request
78.125 - Failure to submit UIC Annual Report upon request
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.60(a) - DISCHARGE REQUIREMENTS - Operator discharged a substance into waters of the Commonwealth contrary to 25 Pa. Code Chapters 91, 93, 95 and 102, The Clean Streams Law and the 2012 Oil and Gas Act.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.74 - VENTING OF GAS - Operator vented gas to the atmosphere that produced a hazard to the public health and safety.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result
OGA 3220(A) - Failure to plug the well upon abandoning it.
91.34(A) - ACTIVITIES UTILIZING POLLUTANTS - Failure to take necessary measures to prevent the substances from directly or indirectly reaching waters of this Commonwealth, through accident, carelessness, maliciousness, hazards of weathe
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.85 - Inadequate, insufficient, and/or improperly installed cement
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
201A - Failure to have permit on site during drilling
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.66(b) - REPORTING RELEASES - Owner or operator failed to report a reportable release of brine on or into the ground at the well site within 2 hours after detecting or discovering the releases.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
208A - Failure to restore a water supply affected by pollution or diminution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
209CASING - Using inadequate casing
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
201E - Failure to comply with terms and conditions of permit
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
208A - Failure to restore a water supply affected by pollution or diminution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.46 - Permittee has failed to implement Erosion and Sedimentation control plan.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.

OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.56(a)2 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct, and maintain at least 2 feet of freeboard in a pit or open top tank.
OGA 3220(A) - Failure to plug the well upon abandoning it.

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.125 - Failure to submit UIC Annual Report upon request
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401CSL - Discharge of pollutional material to waters of Commonwealth.
105.46 - Failure to implement E&S plan approved with 105 Permit.
105MAINT - Failure to maintain encroachment
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105.46 - Failure to implement E&S plan approved with 105 Permit.
105.46 - Failure to implement E&S plan approved with 105 Permit.
105MAINT - Failure to maintain encroachment
105MAINT - Failure to maintain encroachment
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401CSL - Discharge of pollutional material to waters of Commonwealth.
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL301BYPASS - Industrial waste was discharged without a permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.8(k) - PCSM REQUIREMENTS – LICENSED PROFESSIONAL OVERSIGHT – A licensed professional or a designee was not present onsite during critical stages of implementation of the approved PCSM Plan.
105.44 - Permittee has failed to perform work according to specifications as approved.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.

105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.

105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206D - Failure to restore site w/in 9 months of plugging well
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.74* - Hazardous well venting
78.74* - Hazardous well venting
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201A - Failure to have permit on site during drilling
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.35IMPOUND - Adequate impoundment freeboard was not maintained.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
91.35IMPOUND - Adequate impoundment freeboard was not maintained.

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

208A - Failure to restore a water supply affected by pollution or diminution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

78a60(b)5 - DISCHARGE REQUIREMENTS - Owner or operator failed to spread tophole water or precipitation water from a pit over an undisturbed, vegetated area capable of absorbing the tophole water and filtering solids in the discharge, and spr

78a60(b)2-4 - DISCHARGE REQUIREMENTS - Owner or operator land applied tophole water or precipitation water from a pit that did not meet the requirements for pH (6 to 9), conductivity (less than 1,000 µmhos/cm) and no sheen from oil and gre
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.94(A) - PLUGGING – WELLS IN NONCOAL AREAS – SURFACE CASING IS NOT CEMENTED OR NOT PRESENT - Owner or operator failed to follow requirements or other method approved by the Department to plug a well, where the surfac
78.94(A) - PLUGGING – WELLS IN NONCOAL AREAS – SURFACE CASING IS NOT CEMENTED OR NOT PRESENT - Owner or operator failed to follow requirements or other method approved by the Department to plug a well, where the surfac
78.94(A) - PLUGGING – WELLS IN NONCOAL AREAS – SURFACE CASING IS NOT CEMENTED OR NOT PRESENT - Owner or operator failed to follow requirements or other method approved by the Department to plug a well, where the surfac
78.94(A) - PLUGGING – WELLS IN NONCOAL AREAS – SURFACE CASING IS NOT CEMENTED OR NOT PRESENT - Owner or operator failed to follow requirements or other method approved by the Department to plug a well, where the surfac
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.60(a) - DISCHARGE REQUIREMENTS - Operator discharged a substance into waters of the Commonwealth contrary to 25 Pa. Code Chapters 91, 93, 95 and 102, The Clean Streams Law and the 2012 Oil and Gas Act.
78.60(a) - DISCHARGE REQUIREMENTS - Operator discharged a substance into waters of the Commonwealth contrary to 25 Pa. Code Chapters 91, 93, 95 and 102, The Clean Streams Law and the 2012 Oil and Gas Act.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

401CSL - Discharge of pollutional material to waters of Commonwealth.

401CSL - Discharge of pollutional material to waters of Commonwealth.

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
78.60(b)1 - DISCHARGE REQUIREMENTS - Owner or operator land applied tophole water or precipitation water from a pit that contained additives, drilling muds, pollutional materials or drilling fluids without approval by the Department.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.51(H)* - Failure to report receipt of notice from a landowner, water purveyor or affected person that a water supply has been affected by pollution or diminution, to the Department within 24 hours of receiving the notice.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
207B - Failure to case and cement to prevent migrations into fresh groundwater
207B - Failure to case and cement to prevent migrations into fresh groundwater

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

691.401WPD - Failure to prevent sediment or other pollutant discharge into waters of the Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

691.401WPD - Failure to prevent sediment or other pollutant discharge into waters of the Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

105NOPERMIT - Encroachment without Permit or Waiver

105NOPERMIT - Encroachment without Permit or Waiver

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.73(c) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent excessive surface shut-in pressure and surface producing back pressure inside the surface casing or coal protective casing after a we
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.73(c) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent excessive surface shut-in pressure and surface producing back pressure inside the surface casing or coal protective casing after a we
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co

CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206D - Failure to restore site w/in 9 months of plugging well

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
208A - Failure to restore a water supply affected by pollution or diminution
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

201E - Failure to comply with terms and conditions of permit

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.

OGA 3216(A) - Failure to restore disturbed land surface of a well site.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA3259(2I) - Conducting a drilling or production activity that is contrary to the 2012 Oil and Gas Act, 25 Pa. Code Chapter 78, DEP order, or a term or condition of the well permit.
OGA3259(2I) - Conducting a drilling or production activity that is contrary to the 2012 Oil and Gas Act, 25 Pa. Code Chapter 78, DEP order, or a term or condition of the well permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
78.56_(d) - Operator failed to remove or fill pit used for servicing, plugging or recompleting a well within 90 days of construction.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402611 - Failure to meet effluent limits of permit
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402611 - Failure to meet effluent limits of permit
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
207B - Failure to case and cement to prevent migrations into fresh groundwater
207B - Failure to case and cement to prevent migrations into fresh groundwater
207B - Failure to case and cement to prevent migrations into fresh groundwater
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201A - Failure to have permit on site during drilling
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
208A - Failure to restore a water supply affected by pollution or diminution
208A - Failure to restore a water supply affected by pollution or diminution
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105IMP - Failure to implement Encroachment Plan
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.

401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.

105.46 - Permittee has failed to implement Erosion and Sedimentation control plan.

105.46 - Permittee has failed to implement Erosion and Sedimentation control plan.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
6018.301 - Residual Waste is mismanaged.
6018.301 - Residual Waste is mismanaged.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.74* - Hazardous well venting
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.402D - Failure to notify Dept of new storage well leaks above 5000cf/d and/or submit corrective plan
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.62(a)17 - DISPOSAL OF RESIDUAL WASTE - PITS - Owner or operator failed to stabilize, grade and backfill pit area with at least 18 inches over the top of liner to promote runoff and prevent water to accumulate or pond on the surface.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
78.85 - Inadequate, insufficient, and/or improperly installed cement
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.56(a)2 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct, and maintain at least 2 feet of freeboard in a pit or open top tank.
78.56(a)2 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct, and maintain at least 2 feet of freeboard in a pit or open top tank.
78.56(a)2 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct, and maintain at least 2 feet of freeboard in a pit or open top tank.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.82 - Remove conductor pipe
78.82 - Remove conductor pipe
78.82 - Remove conductor pipe
78.82 - Remove conductor pipe

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.

78.56(a)4ii - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Failure to construct the pit liner subbase that is smooth, uniform and free from debris, rock and other material that may puncture, tear, cut or otherwise cause the liner to fail.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.22(a)1 - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to remove temporary E & S BMPs once permanent stabilization had been established.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.22(a)1 - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to remove temporary E & S BMPs once permanent stabilization had been established.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving c

102.22(a)1 - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to remove temporary E & S BMPs once permanent stabilization had been established.
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground

OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
78.56(a)2 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct, and maintain at least 2 feet of freeboard in a pit or open top tank.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.85 - Inadequate, insufficient, and/or improperly installed cement
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
208A - Failure to restore a water supply affected by pollution or diminution
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.74* - Hazardous well venting
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.

78.74 - VENTING OF GAS - Operator vented gas to the atmosphere that produced a hazard to the public health and safety.

78.74 - VENTING OF GAS - Operator vented gas to the atmosphere that produced a hazard to the public health and safety.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
402611 - Failure to meet effluent limits of permit
402611 - Failure to meet effluent limits of permit

92.51CONVHI - Effluent limits for Conventional pollutant(s) were violated.
92A.41IMAX - DEP sample(s) reveal violation(s) of Instantaneous Maximum (IMAX) effluent limits
201A - Failure to have permit on site during drilling
201A - Failure to have permit on site during drilling
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206D - Failure to restore site w/in 9 months of plugging well
201A - Failure to have permit on site during drilling
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.

201E - Failure to comply with terms and conditions of permit
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
214A - Inadequate coal pillar or mining into pillar
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

201E - Failure to comply with terms and conditions of permit

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Comm
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

78.51(A)* - Failure to restore or replace an impacted water supply.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
208A - Failure to restore a water supply affected by pollution or diminution
208A - Failure to restore a water supply affected by pollution or diminution
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

301UNPMTIW - Industrial waste was discharged without permit.

301UNPMTIW - Industrial waste was discharged without permit.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

401 CSL - Discharge of pollutional material to waters of Commonwealth.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
91.34(A) - CSL - Failure to take necessary measures to prevent pollutants from reaching waters of the Commonwealth
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
691.402WPP - Site conditions present a potential for pollution to waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
105NOPERMIT - Encroachment without Permit or Waiver
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
208A - Failure to restore a water supply affected by pollution or diminution
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
208A - Failure to restore a water supply affected by pollution or diminution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
91.35IMPOUND - Adequate impoundment freeboard was not maintained.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
208A - Failure to restore a water supply affected by pollution or diminution
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206D - Failure to restore site w/in 9 months of plugging well

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

691.401WPD - Failure to prevent sediment or other pollutant discharge into waters of the Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206D - Failure to restore site w/in 9 months of plugging well
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.35IMPOUND - Adequate impoundment freeboard not maintained.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
208A - Failure to restore a water supply affected by pollution or diminution
208A - Failure to restore a water supply affected by pollution or diminution
208A - Failure to restore a water supply affected by pollution or diminution
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
101.2B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
206D - Failure to restore site w/in 9 months of plugging well

78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.

206D - Failure to restore site w/in 9 months of plugging well

78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.

206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

691.402WPP - Site conditions present a potential for pollution to waters of the Commonwealth.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.18A - Drilling disposal or enhanced recovery well without a permit
78.18A - Drilling disposal or enhanced recovery well without a permit
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
208A - Failure to restore a water supply affected by pollution or diminution
209BOP - Inadequate or improperly installed BOP, other safety devices, or no certified BOP operator
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105IMP - Failure to implement Encroachment Plan
105IMP - Failure to implement Encroachment Plan
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

201E - Failure to comply with terms and conditions of permit

201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.65(1)* - Rat hole not filled
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.65(1)* - Rat hole not filled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
207B - Failure to case and cement to prevent migrations into fresh groundwater
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
105NOPERMIT - Encroachment without Permit or Waiver
208A - Failure to restore a water supply affected by pollution or diminution
208A - Failure to restore a water supply affected by pollution or diminution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
207B - Failure to case and cement to prevent migrations into fresh groundwater
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
105IMP - Failure to implement Encroachment Plan
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105IMP - Failure to implement Encroachment Plan
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
6018.301 - Residual Waste is mismanaged.
6018.301 - Residual Waste is mismanaged.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
6018.301 - Residual Waste is mismanaged.
6018.301 - Residual Waste is mismanaged.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit

402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
6018.301 - Residual Waste is mismanaged.
6018.301 - Residual Waste is mismanaged.

6018.301 - Operator has mismanagement Residual Waste.
6018.301 - Operator has mismanagement Residual Waste.
6018.301 - Residual Waste is mismanaged.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
6018.302A - Unlawful Management of RSW
6018.302A - Unlawful Management of RSW
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
6018.301 - Residual Waste is mismanaged.
6018.301 - Residual Waste is mismanaged.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
6018.301 - Residual Waste is mismanaged.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
6018.301 - Residual Waste is mismanaged.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
6018.301 - Residual Waste is mismanaged.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

201E - Failure to comply with terms and conditions of permit

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

201E - Failure to comply with terms and conditions of permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.74* - Hazardous well venting
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.51(H)* - Failure to report receipt of notice from a landowner, water purveyor or affected person that a water supply has been affected by pollution or diminution, to the Department within 24 hours of receiving the notice.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
105.449 - COMPLIANCE WITH PERMIT CONDITIONS, REGULATIONS AND LAWS – Person or permittee failed to comply with the general permit terms and conditions while constructing, maintaining, modifying, enlarging or abandoning a water o

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

OGA 3216(A) - Failure to restore disturbed land surface of a well site.

OGA 3216(A) - Failure to restore disturbed land surface of a well site.

OGA 3216(A) - Failure to restore disturbed land surface of a well site.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

OGA 3216(A) - Failure to restore disturbed land surface of a well site.

OGA 3216(A) - Failure to restore disturbed land surface of a well site.
105.449 - COMPLIANCE WITH PERMIT CONDITIONS, REGULATIONS AND LAWS – Person or permittee failed to comply with the general permit terms and conditions while constructing, maintaining, modifying, enlarging or abandoning a water o
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.81(a)3 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent pollution or diminution of fresh groundwater.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
OGA3218.2(C) - Failure to use containment systems for (1) drilling mud, (2) hydraulic oil, (3) diesel fuel, (4) drilling mud additives, (5) hydraulic fracturing additives, (6) hydraulic fracturing flowback.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
6018.301 - Residual Waste is mismanaged.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
78.56(a)4iii - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator's pit bottom not installed at least 20 inches above the seasonal high groundwater table.
78.56(a)4iii - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator's pit bottom not installed at least 20 inches above the seasonal high groundwater table.
78.62(c) - DISPOSAL OF RESIDUAL WASTE - PITS - Owner or operator disposed of residual waste at the well site without Department approval for use of solidifiers or the owner or operator used other alternate practices for the disposal of residua
78.62(c) - DISPOSAL OF RESIDUAL WASTE - PITS - Owner or operator disposed of residual waste at the well site without Department approval for use of solidifiers or the owner or operator used other alternate practices for the disposal of residua
78.62(c) - DISPOSAL OF RESIDUAL WASTE - PITS - Owner or operator disposed of residual waste at the well site without Department approval for use of solidifiers or the owner or operator used other alternate practices for the disposal of residua
78.62(c) - DISPOSAL OF RESIDUAL WASTE - PITS - Owner or operator disposed of residual waste at the well site without Department approval for use of solidifiers or the owner or operator used other alternate practices for the disposal of residua
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.

OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.

OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

OGA 3217(A) - Failure to control and dispose of brines produced from the drilling, alteration or operation of a well consistent with the Clean Streams Law.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.51(a) - PROTECTION OF WATER SUPPLIES - Operator failed to restore or replace a private or public water supply affected by pollution or diminution with an alternate source of water adequate in quantity and quality for the purposes served by
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34(A) - ACTIVITIES UTILIZING POLLUTANTS - Failure to take necessary measures to prevent the substances from directly or indirectly reaching waters of this Commonwealth, through accident, carelessness, maliciousness, hazards of weathe
91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3215(A) - Failure to maintain gas/oil well distances restrictions from a building, private water well or from a water well, surface water intake, reservoir, water extraction point of water purveyor without DEP variance or written consent of owner or
78a81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78a81(a)3 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent pollution or diminution of fresh groundwater.
78a73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78a and ensure that the integrity of the well is maintained and health,
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78a86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
78a81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78a73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78a and ensure that the integrity of the well is maintained and health,
78a81(a)3 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent pollution or diminution of fresh groundwater.
78a86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78a81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78a86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
78a81(a)3 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent pollution or diminution of fresh groundwater.
78a73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78a and ensure that the integrity of the well is maintained and health,
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
78a73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78a and ensure that the integrity of the well is maintained and health,
78a86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed
78a81(a)3 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent pollution or diminution of fresh groundwater.
78a81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78a73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78a and ensure that the integrity of the well is maintained and health,
78a81(a)3 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent pollution or diminution of fresh groundwater.
78a81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78a86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78a81(a)3 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent pollution or diminution of fresh groundwater.
78a73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78a and ensure that the integrity of the well is maintained and health,
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
78a81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78a86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed
78a81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78a86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78a81(a)3 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent pollution or diminution of fresh groundwater.
78a73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78a and ensure that the integrity of the well is maintained and health,
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78a91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under § 3221 of the 2012 Oil & Gas Act, 25 Pa. Code §§ 78a.92—
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78a86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed
78a73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78a and ensure that the integrity of the well is maintained and health,
78a81(a)3 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent pollution or diminution of fresh groundwater.
78a81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

78.56(a)3 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct and maintain pits or tanks to be structurally sound.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
105.46(a) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – During construction of water obstruction or encroachment, permittee failed to follow the erosion and sediment control plan prepared in accordance with Ch

102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.51(a) - PROTECTION OF WATER SUPPLIES - Operator failed to restore or replace a private or public water supply affected by pollution or diminution with an alternate source of water adequate in quantity and quality for the purposes served by
OGA 3218(A) - Failure to restore or replace a public or private water supply affected by a well operator.
OGA 3218(A) - Failure to restore or replace a public or private water supply affected by a well operator.
78.51(a) - PROTECTION OF WATER SUPPLIES - Operator failed to restore or replace a private or public water supply affected by pollution or diminution with an alternate source of water adequate in quantity and quality for the purposes served by
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.4(b)2 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to develop and implement a required written E & S Plan.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)2 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to develop and implement a required written E & S Plan.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commc
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
OGA 3259(5) - Causing abandonment of a well by removal of casing or equipment necessary for production without plugging.
OGA 3259(5) - Causing abandonment of a well by removal of casing or equipment necessary for production without plugging.
OGA 3259(5) - Causing abandonment of a well by removal of casing or equipment necessary for production without plugging.
OGA 3259(5) - Causing abandonment of a well by removal of casing or equipment necessary for production without plugging.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.

401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105.46 - Failure to implement E&S plan approved with 105 Permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.46 - Failure to implement E&S plan approved with 105 Permit.
105.46 - Failure to implement E&S plan approved with 105 Permit.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105.46 - Failure to implement E&S plan approved with 105 Permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105.46 - Failure to implement E&S plan approved with 105 Permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.11 - Person constructed, operated, maintained, modified, enlarged or abandoned a water obstruction or encroachment but failed to obtain Chapter 105 permit.
105.11 - Person constructed, operated, maintained, modified, enlarged or abandoned a water obstruction or encroachment but failed to obtain Chapter 105 permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
105.15 - Person constructed,operated, maintained modified, enlarged or abandoned structures but failed to obtain DEP approval for Envirnonmental Assessment.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
105.46(a) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – During construction of water obstruction or encroachment, permittee failed to follow the erosion and sediment control plan prepared in accordance with Ch
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
105.46(a) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – During construction of water obstruction or encroachment, permittee failed to follow the erosion and sediment control plan prepared in accordance with Ch
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
402611 - Failure to meet effluent limits of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401CSL - Discharge of pollutional material to waters of Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402611 - Failure to meet effluent limits of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
105.47(b) - REMOVAL OF DAMS AND REMOVAL OR ABANDONMENT OF WATER OBSTRUCTIONS AND ENCROACHMENTS - Permittee failed to remove all or any part of the water obstruction or encroachment prior to discontinuing use or ab
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
91.34(A) - ACTIVITIES UTILIZING POLLUTANTS - Failure to take necessary measures to prevent the substances from directly or indirectly reaching waters of this Commonwealth, through accident, carelessness, maliciousness, hazards of weathe
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
301UNPMTIW - Industrial waste was discharged without permit.
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402611 - Failure to meet effluent limits of permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver

78.65(1)* - Rat hole not filled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
OGA3258(A.1) - Drilling commenced without preoperation inspection.
OGA3258(A.1) - Drilling commenced without preoperation inspection.
OGA3258(A.1) - Drilling commenced without preoperation inspection.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
OGA3258(A.1) - Drilling commenced without preoperation inspection.
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.51(a) - PROTECTION OF WATER SUPPLIES - Operator failed to restore or replace a private or public water supply affected by pollution or diminution with an alternate source of water adequate in quantity and quality for the purposes served by

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving

78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.

105.449 - COMPLIANCE WITH PERMIT CONDITIONS, REGULATIONS AND LAWS – Person or permittee failed to comply with the general permit terms and conditions while constructing, maintaining, modifying, enlarging or abandoning a water o

105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.

CSL401 - CSL - Unauthorized, unpermitted discharge of polluting substances to waters of the Commonwealth resulting in pollution

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

OGA3218.2(D) - Containment system(s) does not meet 110% capacity requirement.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f

102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.5(f) - PERMIT REQUIREMENTS – Person failed to implement the PCSM Plan.

102.5(f) - PERMIT REQUIREMENTS – Person failed to implement the PCSM Plan.

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
78a53 - EROSION AND SEDIMENT CONTROL AND STORMWATER MANAGEMENT - Person proposing or conducting earth disturbance activities associated with oil and gas operations failed to comply with 25 Pa. Code § 102.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.
105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(d) - EROSION AND SEDIMENT CONTROL REQUIREMENTS – Person conducting earth disturbance activity failed to obtain other necessary permits and authorizations from the Department or conservation district, related to the earth disturb
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing

102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
78.51(a) - PROTECTION OF WATER SUPPLIES - Operator failed to restore or replace a private or public water supply affected by pollution or diminution with an alternate source of water adequate in quantity and quality for the purposes served by
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
208A - Failure to restore a water supply affected by pollution or diminution
208A - Failure to restore a water supply affected by pollution or diminution
208A - Failure to restore a water supply affected by pollution or diminution
208A - Failure to restore a water supply affected by pollution or diminution
208A - Failure to restore a water supply affected by pollution or diminution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
208A - Failure to restore a water supply affected by pollution or diminution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.11 - Person constructed, operated, maintained, modified, enlarged or abandoned a water obstruction or encroachment but failed to obtain Chapter 105 permit.
105.11 - Person constructed, operated, maintained, modified, enlarged or abandoned a water obstruction or encroachment but failed to obtain Chapter 105 permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(1)* - Rat hole not filled
78.65(1)* - Rat hole not filled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
207B - Failure to case and cement to prevent migrations into fresh groundwater
207B - Failure to case and cement to prevent migrations into fresh groundwater
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.85 - Inadequate, insufficient, and/or improperly installed cement
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

105.46 - Failure to implement E&S plan approved with 105 Permit.

105.46 - Failure to implement E&S plan approved with 105 Permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA 3220(A) - Failure to plug the well upon abandoning it.

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.51(H)* - Failure to report receipt of notice from a landowner, water purveyor or affected person that a water supply has been affected by pollution or diminution, to the Department within 24 hours of receiving the notice.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA3258(A.1) - Drilling commenced without preoperation inspection.
OGA3258(A.1) - Drilling commenced without preoperation inspection.
OGA3258(A.1) - Drilling commenced without preoperation inspection.
OGA3258(A.1) - Drilling commenced without preoperation inspection.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

OGA 3258(B) - Failure to provide free and unrestricted access.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA3258(A.1) - Drilling commenced without preoperation inspection.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.62(a)17 - DISPOSAL OF RESIDUAL WASTE - PITS - Owner or operator failed to stabilize, grade and backfill pit area with at least 18 inches over the top of liner to promote runoff and prevent water to accumulate or pond on the surface.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201A - Failure to have permit on site during drilling

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

401 CSL - Discharge of pollutional material to waters of Commonwealth.

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

401 CSL - Discharge of pollutional material to waters of Commonwealth.

105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver

105NOPERMIT - Encroachment without Permit or Waiver

105NOPERMIT - Encroachment without Permit or Waiver

105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.

402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
201A - Failure to have permit on site during drilling
201A - Failure to have permit on site during drilling
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
201E - Failure to comply with terms and conditions of permit
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
OGA3218.2(C) - Failure to use containment systems for (1) drilling mud, (2) hydraulic oil, (3) diesel fuel, (4) drilling mud additives, (5) hydraulic fracturing additives, (6) hydraulic fracturing flowback.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

301UNPMTIW - Industrial waste was discharged without permit.

402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
301UNPMTIW - Industrial waste was discharged without permit.
301UNPMTIW - Industrial waste was discharged without permit.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

208A - Failure to restore a water supply affected by pollution or diminution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.33POLLINC - Pollution incident was not reported to DEP.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
6018.301 - Residual Waste is mismanaged.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
105IMP - Failure to implement Encroachment Plan
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

78.85 - Inadequate, insufficient, and/or improperly installed cement
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

78a91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under § 3221 of the 2012 Oil & Gas Act, 25 Pa. Code §§ 78a.92—
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
105.46 - Permittee has failed to implement Erosion and Sedimentation control plan.
105.11 - Person constructed, operated, maintained, modified, enlarged or abandoned a water obstruction or encroachment but failed to obtain Chapter 105 permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
105.11 - Person constructed, operated, maintained, modified, enlarged or abandoned a water obstruction or encroachment but failed to obtain Chapter 105 permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
105.46 - Permittee has failed to implement Erosion and Sedimentation control plan.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.88_(d) - OPERATING WELLS - MECHANICAL INTEGRITY OF OPERATING WELLS - Operator failed to immediately notify the Department and follow required hierarchy for corrective actions to mitigate excess pressure on the surface casing s

401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
208A - Failure to restore a water supply affected by pollution or diminution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
208A - Failure to restore a water supply affected by pollution or diminution
207B - Failure to case and cement to prevent migrations into fresh groundwater
207B - Failure to case and cement to prevent migrations into fresh groundwater
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f

102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f

105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

105.46(a) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – During construction of water obstruction or encroachment, permittee failed to follow the erosion and sediment control plan prepared in accordance with Ch

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.

105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.

105.46(a) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – During construction of water obstruction or encroachment, permittee failed to follow the erosion and sediment control plan prepared in accordance with Ch

102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f

102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.

105.46(a) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – During construction of water obstruction or encroachment, permittee failed to follow the erosion and sediment control plan prepared in accordance with Ch

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

105.46(a) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – During construction of water obstruction or encroachment, permittee failed to follow the erosion and sediment control plan prepared in accordance with Ch

105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.

105.46(a) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – During construction of water obstruction or encroachment, permittee failed to follow the erosion and sediment control plan prepared in accordance with Ch
102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f
102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f
102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.22(a)1 - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to remove temporary E & S BMPs once permanent stabilization had been established.
102.22(a)1 - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to remove temporary E & S BMPs once permanent stabilization had been established.
102.4(b)4 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person failed to plan and implement earth disturbance activities to minimize duration & extent of earth disturbance, minimize soil compaction, maximize protection of drainage f
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

OGA 3220(A) - Failure to plug the well upon abandoning it.

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.46 - Failure to implement E&S plan approved with 105 Permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401CAUSEPOLL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
6018.301 - Residual Waste is mismanaged.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
6018.301 - Residual Waste is mismanaged.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
201E - Failure to comply with terms and conditions of permit
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201A - Failure to have permit on site during drilling
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.73(b) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to prevent gas, oil, brine, completion and servicing fluids, and any other fluids or materials from below the casing seat from entering fresh ground
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.81(b) - CASING AND CEMENTING - GENERAL PROVISIONS - The operator failed to drill through fresh groundwater zones with diligence and as efficiently as practical to minimize drilling disturbance and commingling of groundwaters.
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

78.56(a)1 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator's temporary containment pit, tank or series of pits and tanks was not constructed and maintained with sufficient capacity to contain all pollutional substances and wastes

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

91.34(A) - ACTIVITIES UTILIZING POLLUTANTS - Failure to take necessary measures to prevent the substances from directly or indirectly reaching waters of this Commonwealth, through accident, carelessness, maliciousness, hazards of weathe
91.33(A) - INCIDENTS CAUSING OR THREATENING POLLUTION - Failure to notify the Department of an accident or other activity or incident, a toxic substance or another substance which would endanger downstream users of the waters, result

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34(A) - ACTIVITIES UTILIZING POLLUTANTS - Failure to take necessary measures to prevent the substances from directly or indirectly reaching waters of this Commonwealth, through accident, carelessness, maliciousness, hazards of weathe
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.82 - Remove conductor pipe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3259(5) - Causing abandonment of a well by removal of casing or equipment necessary for production without plugging.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.60(a) - DISCHARGE REQUIREMENTS - Operator discharged a substance into waters of the Commonwealth contrary to 25 Pa. Code Chapters 91, 93, 95 and 102, The Clean Streams Law and the 2012 Oil and Gas Act.
78.60(a) - DISCHARGE REQUIREMENTS - Operator discharged a substance into waters of the Commonwealth contrary to 25 Pa. Code Chapters 91, 93, 95 and 102, The Clean Streams Law and the 2012 Oil and Gas Act.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
208A - Failure to restore a water supply affected by pollution or diminution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.83(a) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator utilized the surface casing or casing functioning as the water protection casing as the production casing for a v
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
