OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
206D - Failure to restore site w/in 9 months of plugging well
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206D - Failure to restore site w/in 9 months of plugging well
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.

206D - Failure to restore site w/in 9 months of plugging well
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
206D - Failure to restore site w/in 9 months of plugging well
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
201A - Failure to have permit on site during drilling
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206D - Failure to restore site w/in 9 months of plugging well
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201A - Failure to have permit on site during drilling
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
206D - Failure to restore site w/in 9 months of plugging well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3211(A) - Drilling or altering a well without a well permit or no copy of the well permit at the well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.85 - Inadequate, insufficient, and/or improperly installed cement
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.56(a)2 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct, and maintain at least 2 feet of freeboard in a pit or open top tank.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.

78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.
78.83b.(a) - CASING AND CEMENTING - LOST CIRCULATION - Operator failed to follow one of the approved requirements and notify the Department after cement used to permanently cement the surface or coal protective casing failed to surface
78.83b.(a) - CASING AND CEMENTING - LOST CIRCULATION - Operator failed to follow one of the approved requirements and notify the Department after cement used to permanently cement the surface or coal protective casing failed to surface
78.83b.(a) - CASING AND CEMENTING - LOST CIRCULATION - Operator failed to follow one of the approved requirements and notify the Department after cement used to permanently cement the surface or coal protective casing failed to surface
78.83b.(a) - CASING AND CEMENTING - LOST CIRCULATION - Operator failed to follow one of the approved requirements and notify the Department after cement used to permanently cement the surface or coal protective casing failed to surface
78.83b.(a) - CASING AND CEMENTING - LOST CIRCULATION - Operator failed to follow one of the approved requirements and notify the Department after cement used to permanently cement the surface or coal protective casing failed to surface
78.83b.(a) - CASING AND CEMENTING - LOST CIRCULATION - Operator failed to follow one of the approved requirements and notify the Department after cement used to permanently cement the surface or coal protective casing failed to surface
78.83b.(a) - CASING AND CEMENTING - LOST CIRCULATION - Operator failed to follow one of the approved requirements and notify the Department after cement used to permanently cement the surface or coal protective casing failed to surface
78.83b.(a) - CASING AND CEMENTING - LOST CIRCULATION - Operator failed to follow one of the approved requirements and notify the Department after cement used to permanently cement the surface or coal protective casing failed to surface
78.83b.(a) - CASING AND CEMENTING - LOST CIRCULATION - Operator failed to follow one of the approved requirements and notify the Department after cement used to permanently cement the surface or coal protective casing failed to surface
78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
402611 - Failure to meet effluent limits of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402611 - Failure to meet effluent limits of permit
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402611 - Failure to meet effluent limits of permit
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
6018.301 - Residual Waste is mismanaged.
6018.610-4 - Handles solid waste contrary to rules and regulations, or orders of the Department, or any permit condition, or in any manner as to create a public nuisance.
6018.610-4 - Handles solid waste contrary to rules and regulations, or orders of the Department, or any permit condition, or in any manner as to create a public nuisance.
6018.301 - Residual Waste is mismanaged.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
691.402 - Potential to pollute waters of the Commonwealth
6018.301 - Residual Waste is mismanaged.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.82 - Remove conductor pipe
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.61(b)7 - DISPOSAL OF DRILL CUTTINGS - Owner or operator disposed of drill cuttings from above the casing seat, by land application, in quantities which resulted in runoff or caused surface water or groundwater pollution.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.62(a)1 - DISPOSAL OF RESIDUAL WASTE - PITS - Owner or operator disposed of residual waste, in a pit, that was not generated by the drilling or production of an oil or gas well that is located on the well site.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
78.74* - Hazardous well venting
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
691.402PP - Site conditions present a potential for pollution to waters of the Commonwealth.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
691.401WPD - Failure to prevent sediment or other pollutant discharge into waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
691.401WPD - Failure to prevent sediment or other pollutant discharge into waters of the Commonwealth.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.85 - Inadequate, insufficient, and/or improperly installed cement
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.82 - Remove conductor pipe

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
208A - Failure to restore a water supply affected by pollution or diminution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
402611 - Failure to meet effluent limits of permit
402611 - Failure to meet effluent limits of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.56(a)1 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator's temporary containment pit, tank or series of pits and tanks was not constructed and maintained with sufficient capacity to contain all pollutional substances and wastes

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.98 - PLUGGING - RESTRICTING SURFACE WATER FROM THE WELL BORE – Operator failed to permanently fill the area between the casings or the casing and the well bore to the surface with nonporous material in order to restrict surface
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.89(a) - OPERATING WELLS - GAS MIGRATION RESPONSE - Owner or operator failed to immediately conduct an investigation to determine nature of the incident, assess potential hazards to public health and safety, and mitigate any hazard p
78.89(a) - OPERATING WELLS - GAS MIGRATION RESPONSE - Owner or operator failed to immediately conduct an investigation to determine nature of the incident, assess potential hazards to public health and safety, and mitigate any hazard p

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
OGA 3211(M) - Failure to obtain an approved water management plan for withdrawing or using water during the drilling or hydraulic fracture stimulation of an unconventional well.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.91(a) - PLUGGING - GENERAL PROVISIONS - Upon abandoning a well, the owner or operator failed to plug the well to stop the vertical flow of fluids or gas within the well bore under 25 Pa. Code ?? 78.92 ? 78.98 or an approved alternate meth
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105IMP - Failure to implement Encroachment Plan
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
91.33POLLINC - Pollution incident was not reported to DEP.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
91.33POLLINC - Pollution incident was not reported to DEP.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.
102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
206D - Failure to restore site w/in 9 months of plugging well
206D - Failure to restore site w/in 9 months of plugging well
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
105NOPERMIT - Encroachment without Permit or Waiver
78.65(1)* - Rat hole not filled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.65(1)* - Rat hole not filled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.85 - Inadequate, insufficient, and/or improperly installed cement
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
105.46 - Failure to implement E&S plan approved with 105 Permit.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.64(a) - CONTAINMENT AROUND OIL TANKS - For a tank capacity of at least 660 gallons or tanks with a combined capacity of at least 1,320 gallons, the owner or operator failed to construct and maintain a dike or other method of secondary co
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.
78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.
78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.
78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.
78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.
78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.
78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.

78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.
78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.
78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.
78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a
401 CSL - Discharge of pollutional material to waters of Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.
78.65(1)* - Rat hole not filled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
105NOPERMIT - Encroachment without Permit or Waiver
78.65(1)* - Rat hole not filled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.65(1)* - Rat hole not filled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(1)* - Rat hole not filled
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.74* - Hazardous well venting
OGA 3217(B) - Failure to prevent migration of gas or fluids into sources of fresh water causing pollution or diminution. Failure to properly case and cement well through a fresh water-bearing strata in regulated manner or depth.
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
91.34(A) - ACTIVITIES UTILIZING POLLUTANTS - Failure to take necessary measures to prevent the substances from directly or indirectly reaching waters of this Commonwealth, through accident, carelessness, maliciousness, hazards of weathe
91.34(A) - ACTIVITIES UTILIZING POLLUTANTS - Failure to take necessary measures to prevent the substances from directly or indirectly reaching waters of this Commonwealth, through accident, carelessness, maliciousness, hazards of weathe
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
OGA 3220(A) - Failure to plug the well upon abandoning it.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
201A - Failure to have permit on site during drilling
78.65(1)* - Rat hole not filled
78.65(1)* - Rat hole not filled
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving c
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving c
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.60(b)5 - DISCHARGE REQUIREMENTS - Owner or operator failed to spread tophole water or precipitation water from a pit over an undisturbed, vegetated area capable of absorbing the tophole water and filtering solids in the discharge, and spre
78.60(b)5 - DISCHARGE REQUIREMENTS - Owner or operator failed to spread tophole water or precipitation water from a pit over an undisturbed, vegetated area capable of absorbing the tophole water and filtering solids in the discharge, and spre
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving c
78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving c
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.60(a) - DISCHARGE REQUIREMENTS - Operator discharged a substance into waters of the Commonwealth contrary to 25 Pa. Code Chapters 91, 93, 95 and 102, The Clean Streams Law and the 2012 Oil and Gas Act.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
201A - Failure to have permit on site during drilling
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
201E - Failure to comply with terms and conditions of permit
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4(d) - EROSION AND SEDIMENT CONTROL REQUIREMENTS – Person conducting earth disturbance activity failed to obtain other necessary permits and authorizations from the Department or conservation district, related to the earth disturb
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.4(d) - EROSION AND SEDIMENT CONTROL REQUIREMENTS – Person conducting earth disturbance activity failed to obtain other necessary permits and authorizations from the Department or conservation district, related to the earth disturb
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4(d) - EROSION AND SEDIMENT CONTROL REQUIREMENTS – Person conducting earth disturbance activity failed to obtain other necessary permits and authorizations from the Department or conservation district, related to the earth disturb
78.56(a)2 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct, and maintain at least 2 feet of freeboard in a pit or open top tank.
78.56(a)2 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct, and maintain at least 2 feet of freeboard in a pit or open top tank.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
201E - Failure to comply with terms and conditions of permit
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.74* - Hazardous well venting
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
691.401CP - Failure to prevent sediment or other pollutant discharge into waters of the Commonwealth.
691.401CP - Failure to prevent sediment or other pollutant discharge into waters of the Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
105IMP - Failure to implement Encroachment Plan
105IMP - Failure to implement Encroachment Plan
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
208A - Failure to restore a water supply affected by pollution or diminution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

105MAINT - Failure to maintain encroachment

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

201E - Failure to comply with terms and conditions of permit
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402611 - Failure to meet effluent limits of permit
402611 - Failure to meet effluent limits of permit
402611 - Failure to meet effluent limits of permit
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
691.611OBST - Persons hindered, obstructed, prevented or interfered with the Department or its personnelin perofrming duties.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.46 - Failure to implement E&S plan approved with 105 Permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.8(m)1 - PCSM REQUIREMENTS – LONG TERM OPERATION AND MAINTENANCE REQUIREMENTS – Permittee or co-permittee failed to be responsible for long term O & M of PCSM BMPs and no different person was identified on the NO

102.8(m)1 - PCSM REQUIREMENTS – LONG TERM OPERATION AND MAINTENANCE REQUIREMENTS – Permittee or co-permittee failed to be responsible for long term O & M of PCSM BMPs and no different person was identified on the NO
105.46(b) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – Permittee failed to conduct construction in a manner to minimize erosion of banks and bed of the stream and disturbance of the regimen of the stream.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
105.449 - COMPLIANCE WITH PERMIT CONDITIONS, REGULATIONS AND LAWS – Person or permittee failed to comply with the general permit terms and conditions while constructing, maintaining, modifying, enlarging or abandoning a water o
105.449 - COMPLIANCE WITH PERMIT CONDITIONS, REGULATIONS AND LAWS – Person or permittee failed to comply with the general permit terms and conditions while constructing, maintaining, modifying, enlarging or abandoning a water o
79.12 - Inadequate casing/cementing in conservation well
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

201E - Failure to comply with terms and conditions of permit

201E - Failure to comply with terms and conditions of permit
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled

78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.77 - Failure to monitor or operate H2S Well
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
78.73(a) - GENERAL PROVISION FOR WELL CONSTRUCTION AND OPERATION - Operator failed to construct and operate the well in accordance with 25 Pa. Code Chapter 78 and ensure that the integrity of the well is maintained and health, sa
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301UNPMTIW - Industrial waste was discharged without permit.
301UNPMTIW - Industrial waste was discharged without permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
105NOPERMIT - Encroachment without Permit or Waiver
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

691.402WPP - Site conditions present a potential for pollution to waters of the Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.65(1)* - Rat hole not filled
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401CSL - Discharge of pollutional material to waters of Commonwealth.
6018.301 - Residual Waste is mismanaged.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

401CSL - Discharge of pollutional material to waters of Commonwealth.

401CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
208A - Failure to restore a water supply affected by pollution or diminution
OGA 3216(B) - Failure to follow E&S control plan during and after earthmoving or soil disturbing activities.
402611 - Failure to meet effluent limits of permit
OGA 3218(A) - Failure to restore or replace a public or private water supply affected by a well operator.

OGA 3218(A) - Failure to restore or replace a public or private water supply affected by a well operator.
OGA 3218(A) - Failure to restore or replace a public or private water supply affected by a well operator.

OGA 3216(A) - Failure to restore disturbed land surface of a well site.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res

102.4(b)2 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to develop and implement a required written E & S Plan.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.
78.65(2) - SITE RESTORATION - Owner or operator failed to restore the constructed well site within 30 days after the expiration of the well permit, at a well site a well was not drilled. No extension was granted by the Department.

78.53 - EROSION AND SEDIMENT CONTROL - Operator failed to design, implement and maintain best management practices and an erosion and sediment control plan in accordance with 25 Pa. Code Chapter 102, during and after earthmoving a

102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.

OGA 3216(A) - Failure to restore disturbed land surface of a well site.

105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit

102.7(c) - PERMIT TERMINATION – Permittee failed to remain in compliance with permit terms and conditions on the project site until receiving written approval of the notice of termination (NOT) from the Department or conservation district.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(f) - PERMIT REQUIREMENTS – Person failed to implement the PCSM Plan.

102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.4(b)2 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to develop and implement a required written E & S Plan.

78a64a(b) - SECONDARY CONTAINMENT – All regulated substances, including solid wastes and other regulated substances in equipment or vehicles, failed to be managed within secondary containment on the well site.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
206REST - Failure to restore site w/in 9 months of completion of drilling or plugging
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
78.83(c) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill to approximately 50 feet below the deepest fresh groundwater or at least 50 feet into consolidatec
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3216(A) - Failure to restore disturbed land surface of a well site.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.83b.(a) - CASING AND CEMENTING - LOST CIRCULATION - Operator failed to follow one of the approved requirements and notify the Department after cement used to permanently cement the surface or coal protective casing failed to surface
78.83b.(a) - CASING AND CEMENTING - LOST CIRCULATION - Operator failed to follow one of the approved requirements and notify the Department after cement used to permanently cement the surface or coal protective casing failed to surface
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.83b.(a) - CASING AND CEMENTING - LOST CIRCULATION - Operator failed to follow one of the approved requirements and notify the Department after cement used to permanently cement the surface or coal protective casing failed to surface
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.83(a) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator utilized the surface casing or casing functioning as the water protection casing as the production casing for a v
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.83(b) - CASING AND CEMENTING - SURFACE AND COAL PROTECTIVE CASING AND CEMENTING PROCEEDURES - Operator failed to drill a hole at least one inch greater than the outside diameter of the casing collar or casing coupling.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

201E - Failure to comply with terms and conditions of permit

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

78.65(1)* - Rat hole not filled

91.35IMPOUND - Adequate impoundment freeboard was not maintained.
78.65(1)* - Rat hole not filled
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
301UNPMTIW - Industrial waste was discharged without permit.
301UNPMTIW - Industrial waste was discharged without permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.

78.65(1)* - Rat hole not filled
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
301UNPMTIW - Industrial waste was discharged without permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

91.33POLLINC - Pollution incident was not reported to DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33POLLINC - Pollution incident was not reported to DEP.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301UNPMTIW - Industrial waste was discharged without permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.85 - Inadequate, insufficient, and/or improperly installed cement
78.85 - Inadequate, insufficient, and/or improperly installed cement
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
91.33POLLINC - Pollution incident was not reported to DEP.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

206REST - Failure to restore site w/in 9 months of completion of drilling or plugging

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.33POLLINC - Pollution incident was not reported to DEP.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
CSL201BYPASS - Untreated or inadequately treated sewage was discharged
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
CSL201BYPASS - Untreated or inadequately treated sewage was discharged
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
CSL201BYPASS - Untreated or inadequately treated sewage was discharged
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

91.33B - Failure to take measures to mitigate spill impact and/or clean up w/in 15 days
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.65(2)* - Failure to restore site within 30 days of permit expiration when well not drilled
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.73A - Operator shall prevent gas and other fluids from lower formations from entering fresh groundwater.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.

78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3220(A) - Failure to plug the well upon abandoning it.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.57(A)* - Discharge of brine and other fluids on or into the ground or into the waters of the Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.81(a)3 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent pollution or diminution of fresh groundwater.
78.81(a)3 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent pollution or diminution of fresh groundwater.
691.401WPD - Failure to prevent sediment or other pollutant discharge into waters of the Commonwealth.
691.401WPD - Failure to prevent sediment or other pollutant discharge into waters of the Commonwealth.
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78.81(a)2 - CASING AND CEMENTING - GENERAL PROVISIONS - Operator conducted casing and cementing activities that failed to prevent migration of gas or other fluids into sources of fresh groundwater.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.83b.(a) - CASING AND CEMENTING - LOST CIRCULATION - Operator failed to follow one of the approved requirements and notify the Department after cement used to permanently cement the surface or coal protective casing failed to surface
OGA 3259(1) - Drilling, altering or operating a well without a permit. Failure to comply with rules or regulations adopted under the 2012 Oil and Gas Act, DEP order, or a term or condition of the well permit.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

OGA 3216(A) - Failure to restore disturbed land surface of a well site.

102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
105.46(a) - IMPLEMENTATION OF EROSION AND SEDIMENTATION CONTROL PLANS – During construction of water obstruction or encroachment, permittee failed to follow the erosion and sediment control plan prepared in accordance with Ch
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
OGA 3217(A) - Failure to control and dispose of brines produced from the drilling, alteration or operation of a well consistent with the Clean Streams Law.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

OGA 3216(D) - Failure to remove production/storage facilities, supplies and equipment and restore the well site within 9 months of plugging a well.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.

102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.86 - CASING AND CEMENTING - DEFECTIVE CASING OR CEMENTING - Operator failed to report defect in a well that has defective, insufficient or improperly cemented casing to the Department within 24 hours of discovery. Operator failed t

78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r

301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
OGA 3220(A) - Failure to plug the well upon abandoning it.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
78.96 - PLUGGING – MARKING THE LOCATION OF A PLUGGED WELL – Upon completion of plugging or replugging a well, the operator failed to erect a permanent marker with permit or registration number.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
OGA 3220(A) - Failure to plug the well upon abandoning it.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
105NOPERMIT - Encroachment without Permit or Waiver
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
105NOPERMIT - Encroachment without Permit or Waiver
105.11 - Person constructed, operated, maintained, modified, enlarged or abandoned a water obstruction or encroachment but failed to obtain Chapter 105 permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301UNPMTIW - Industrial waste was discharged without permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
91.33POLLINC - Pollution incident was not reported to DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
401CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
CSL401CAUSPL - Polluting substance(s) allowed to discharge into Waters of the Commonwealth
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
CSL402POTPOL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL B - Failure to meet requirements of permit, rules and regulations, or order of DEP.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401CSL - Discharge of pollutional material to waters of Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
6018.301 - Residual Waste is mismanaged.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL301BYPASS - Industrial waste was discharged without a permit
CSL301BYPASS - Industrial waste was discharged without a permit
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.33POLLINC - Pollution incident was not reported to DEP.
402POTNLPOLL - There is a potential for polluting substance(s) reaching Waters of the Commonwealth and may require a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
401CSL - Discharge of pollutional material to waters of Commonwealth.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)

401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
301CSL - Stream discharge of IW, includes drill cuttings, oil, brine and/or silt
401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
401CSL - Discharge of pollutional material to waters of Commonwealth.
78.51(H)* - Failure to report receipt of notice from a landowner, water purveyor or affected person that a water supply has been affected by pollution or diminution, to the Department within 24 hours of receiving the notice.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401CSL - Discharge of pollutional material to waters of Commonwealth.

102.4 - Failure to minimize accelerated erosion, implement E&S plan, maintain E&S controls. Failure to stabilize site until total site restoration under OGA Sec 206(c)(d)
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
307CSL - Discharge of industrial waste to waters of Commonwealth without a permit.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
402CSL - Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
OGA 3220(A) - Failure to plug the well upon abandoning it.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
401 CSL - Discharge of pollutional material to waters of Commonwealth.
691.402 - Potential to pollute waters of the Commonwealth

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
691.402 - Potential to pollute waters of the Commonwealth
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
78.54* - Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
78.56(a)3 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct and maintain pits or tanks to be structurally sound.
78.56(a)3 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct and maintain pits or tanks to be structurally sound.
78.56(a)3 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct and maintain pits or tanks to be structurally sound.

OGA 3216(A) - Failure to restore disturbed land surface of a well site.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
105.51 - OPERATION AND MAINTENANCE - Permittee or owner of a water obstruction or encroachment failed to operate and maintain the facility and appurtenant structures in a safe condition in accordance with permit terms and conditions.
105.51 - OPERATION AND MAINTENANCE - Permittee or owner of a water obstruction or encroachment failed to operate and maintain the facility and appurtenant structures in a safe condition in accordance with permit terms and conditions.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
78.57(a) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
91.34A - Failure to take all necessary measures to prevent spill. Inadequate diking, potential pollution
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
78.66(a) - REPORTING RELEASES - Owner or operator failed to comply with the reporting and corrective action requirements of 25 Pa. Code Section 91.33 when a release of a substance caused or threatened pollution to the Waters of the Commo
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
102.22(a)1 - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to remove temporary E & S BMPs once permanent stabilization had been established.
102.22(a) - SITE STABILIZATION – PERMANENT STABILIZATION – Permitee failed to have site permanently stabilized and protected from accelerated erosion and sedimentation upon final completion of earth disturbance activity.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.56(a)2 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct, and maintain at least 2 feet of freeboard in a pit or open top tank.
78.56(a)3 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct and maintain pits or tanks to be structurally sound.
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.11(a)1 - GENERAL REQUIREMENTS – BMP AND DESIGN STANDARDS - Person failed to design, implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation to protect, maintain, reclaim and res
102.4(b)1 - EROSION AND SEDIMENT CONTROL REQUIREMENTS - Person conducting earth disturbance activity failed to implement and maintain E & S BMPs to minimize the potential for accelerated erosion and sedimentation.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
78.57(b) - CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS - Operator used an unauthorized pit for the control, handling, or storage of brine and other fluids produced during operation, service or plugging of a well.
105.11(a) - PERMIT REQUIREMENTS – Person failed to obtain a permit from the Department prior to construction, operation, maintenance, modification, enlargement or abandonment of a water obstruction or encroachment.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
102.5(c) - PERMIT REQUIREMENTS – Person conducting earth disturbance activity associated with oil and gas activities involving 5 acres or more of earth disturbance over the life of the project failed to obtain an E & S Permit prior to commencing
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
OGA 3216(C) - Failure to fill all pits used to contain produced fluids or industrial wastes and remove unnecessary drilling supplies/equipment not needed for production within 9 months from completion of drilling of well.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill

OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
102.22(b)1 - SITE STABILIZATION – TEMPORARY STABILIZATION – Permitee failed to temporarily stabilize the site to protect it from accelerated erosion and sedimentation where cessation of earth disturbance activities exceeded 4 days.
78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
OGA3218.2(A) - Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
CSL 401 - PROHIBITION AGAINST OTHER POLLUTIONS - Discharged substance of any kind or character resulting in pollution of Waters of the Commonwealth.

SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.

CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe

78.56(a) - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to contain pollutional substances and wastes from the drilling, altering, completing, recompleting, servicing and plugging the well, including brines, drill cuttings, drill
OGA3218.2(C) - Failure to use containment systems for (1) drilling mud, (2) hydraulic oil, (3) diesel fuel, (4) drilling mud additives, (5) hydraulic fracturing additives, (6) hydraulic fracturing flowback.
CSL 301 - PROHIBITION AGAINST DISCHARGE OF INDUSTRIAL WASTES - Industrial waste discharged into Waters of the Commonwealth.
CSL 307(a) - INDUSTRIAL WASTE DISCHARGES - Industrial waste discharged, directly or indirectly, into Waters of the Commonwealth, without a permit, authorization, or contrary to rules and regulations of the Department.
SWMA301 - Failure to properly store, transport, process or dispose of a residual waste.
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
78.56(a)3 - PITS AND TANKS FOR TEMPORARY CONTAINMENT - Operator failed to design, construct and maintain pits or tanks to be structurally sound.
105.51 - OPERATION AND MAINTENANCE - Permittee or owner of a water obstruction or encroachment failed to operate and maintain the facility and appurtenant structures in a safe condition in accordance with permit terms and conditions.
105.51 - OPERATION AND MAINTENANCE - Permittee or owner of a water obstruction or encroachment failed to operate and maintain the facility and appurtenant structures in a safe condition in accordance with permit terms and conditions.
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit
78.54 - GENERAL REQUIREMENTS - Operator failed to control and dispose of fluids, residual waste and drill cuttings, including tophole water, brines, drilling fluids, drilling muds, stimulation fluids, well servicing fluids, oil, and production fluids in a r
CSL 402(b) - POTENTIAL POLLUTION - Conducting an activity regulated by a permit issued pursuant to Section 402 of The Clean Streams Law to prevent the potential of pollution to waters of the Commonwealth without a permit or contrary to a pe
SWMA 301 - Failure to properly store, transport, process or dispose of a residual waste.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit
105.44(a) - IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS – Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.
102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

102.5(m)4 - PERMIT REQUIREMENTS – GENERAL PERMITS – Person failed to comply with the terms and conditions of the E & S Control General Permit.

Viols closed with CACP (Enf 293660) on 2/5/2013

Viols closed with CACP (Enf 293660) on 2/5/2013

Dewatering of a trench done without ABACT BMPs and discharged to a waters of the commonwealth.
Significant sediment on S.R. 973 from Warrensville Trunkline. RCE's not maintained.
significant erosion and sedimentation resulting in sediment leaving the site.
Sediment discharge to UNT to Slack Run from pipeline stream crossing and wetland crossing.

Productio fluid released to the compressor pad
Relaese of 13 gals of etylene glycol mist to the ground
release of approximately 15 gals of ethylene glycol released as a spray onto the compressor and ground on the pad
Impacts to waters of the commonwealth including distrubance to wetlands and failure to restore stream crossings.
Impacts to waters of the commonwealth including distrubance to wetlands and failure to restore stream crossings.
Impacts to waters of the commonwealth including distrubance to wetlands and failure to restore stream crossings.

4/12/12 insp found viols corrected, NOV issued and closed.
filter bag discherging sed.-laden water to waters of the Commonwealth
filter bag discherging sed.-laden water to waters of the Commonwealth
I observed a trail of sediment originating from SM 88+00 along an intermittent channel into an UNT to Rockwell Creek.
I observed a trail of sediment originating from SM 88+00 along an intermittent channel into an UNT to Rockwell Creek.
Title 35 P.S. § 691.401. Discharge of pollutional material to waters of the commonwealth.
Title 25 Pa. Code § 102.4(b)(1). Failure to minimize accelerated erosion.
Operator reported a loss of sediment to stream due to rain event.
Operator reported loss of sediment to stream due to rain event.
Violation of Title 25 Pa. Code § 102.4(b)(1). Release of sediment laden water from the pipeline ROW into Cold Creek (WWF).
Violation of Title 35 P.S. § 691.401. Release of sediment laden water from the pipeline ROW into Cold Creek (WWF).
Violation of Title 35 P.S. § 691.401. Discharge of pollutional material to Waters of the Commonwealth. Sediment from the pipeline ROW eroded and was discharged into a UNT to Rummerfield Creek (WWF).
Violation of Title 25 Pa. Code § 102.4(b)(1). Failure to minimize the potential for accelerated erosion. Sediment from the pipeline ROW eroded and was discharged into a UNT to Rummerfield Creek (WWF).

See Insp ID 2490449 conducted 6/2/16, past viols corrected.

Department representative Frank Hoehle was on site to inspect the repair work done on the Coleman to Colewell Trunk Line (ESX29-115-15-0004).

The repairs appeared to address the issues cited in the NOV 342281.
There were no erosion and sedimentation issues ongoing at this time.

There are no new violations.

If there are any questions, feel free to contact me at (570) 346-5539.

~400 gallons of production water was released onto the ground due to a tank failure. Proper notifications were made and clean up of material began immediately. A site remediation plan has been submitted for review.

This well did produce gas in the prior 12 months, therefore the well is not considered abandoned, and does not require plugging.
Well did produce gas in previous 12 months therefore was not "abandoned" and not required to be plugged.

11:00, arrived at Sugar Run (stream 064-04) near intersection of North Street Rd and Stevenson Rd. E&S controls in place but inadequate. Water running over filter sock and additional staw bales added to try to stop flow of water to the run.

Sugar Run, CWF, entirely brick red with sediment from the pipeline construction.

At the pipeline road corssing near the intersection of Mary ann Rd and Baillets Pond Rd. The pipeline corssing is in place but the area is not vegetated. The area is relatively fltat but I observed signs of enhanced erosion including. Silt sock ripped
Sediment laden water and mud observed leaving the site boundary and directly discharging to waters of the Commonwealth in multiple locations.
Site was not stabilized, which created the potential for pollution prior to the weather experienced.

I observed that the creek edge has been stabilized using many layers of straw, siltsock, and silt fence. Sugar Run above thhe site is running clean. At and below the site the run is red with sediment. Water appears to be running underneath E&S con

Access road, NE section: sed control basins full of muddy water, additonal run-off would overwhelm.
Access road, NE section: sed control basins full of muddy water, additonal run-off would overwhelm.

Fine Sediment noted leaving the site in area of E&S BMPs below sed. basin, recommended some remedial actions for repair until area dried out and a complete reinstallation of BMPs could be completed.
Fine Sediment noted leaving the site in area of E&S BMPs below sed. basin, recommended some remedial actions for repair until area dried out and a complete reinstallation of BMPs could be completed.

Lack of super silt fence created sediment discharge into nearby pond

Lack of super silt fence created sediment discharge into nearby pond

Acceptable response received.- At Station ID: 20+13 a release of sediment had occurred and impacted UNT to Little Meshoppen Creek. Controls had been reestablished and the released sediment was partially covered with straw.

Acceptable response received. - At Station IDs: 14+00 and 17+00, there are drainage issues. Water is crossing the ROW and picking up sediment, overcoming the existing controls, and releasing sediment-laden water off the ROW.
Incorrectly using sediment filter bag.

Acceptable response rec'vd. - At Station ID: 20 + 13, sediment-laden water was actively discharging to the Unnamed Tributary (desinated as Stream 14). Current E & S BMPs that are installed are not reducing accelerated erosion occurring at this l

filter bag failure led to discharge of sediment into Bullard Creek.
Filter bag failure
Water bars channeling water and causing accelerated erosion and sedimentation
Approx. 3000 gallons bentonite-only mud released into ephemeral channel at break in slope, west side of UNT to Mill Creek. UNT and Mill Creek discolored for total of approx 4000 ft. Bore approx 2000' overall length and 200' vertical drop. IR at 100
Approx. 3000 gallons bentonite-only mud released into ephemeral channel at break in slope, west side of UNT to Mill Creek. UNT and Mill Creek discolored for total of approx 4000 ft. Bore approx 2000' overall length and 200' vertical drop. IR at 100
Thick deposits indicate that inadvertent return proceeded for some time.
Loss of return estimated at tens of thousands of gallons on 8/20/12. Despite this drilling started up on 8/21 with no apparent change in operational parameters. No contingency access agreement in place with downstream landowner, despite possible
Loss of return estimated at tens of thousands of gallons on 8/20/12. Despite this drilling started up on 8/21 with no apparent change in operational parameters. No contingency access agreement in place with downstream landowner, despite possible
Thick (up to approx 8") of bentonite mud in pools on Harts Run and Mill Creek up to approx 4000' downstream of the inadvertent return.
Thick (up to approx 8") of bentonite mud in pools on Harts Run and Mill Creek up to approx 4000' downstream of the inadvertent return.
Thick deposits indicate that inadvertent return proceeded for some time.
Staff on site thought it was OK to discharge muddy water to creek as long as E&S plan was being followed. Muddy water infiltrating bank, no effort to address.
Muddy water discharged into an EV creek for approximately 5 hours. Discharge enough to completely discolor creek.
Discharge of sediment into creek with no apparent attempt to stop it.
Staff on site thought it was OK to discharge muddy water to creek as long as E&S plan was being followed. Muddy water infiltrating bank, no effort to address.
Discharge of sediment into creek with no apparent attempt to stop it.
Muddy water discharged into an EV creek for approximately 5 hours. Discharge enough to completely discolor creek.
Turbid discharge from dewatering structure entered Black Water Run.
Turbid discharge from dewatering structure entered Black Water Run.
Turbid discharge from dewatering structure entered Black Water Run.
Viols closed with followup inspection on 2/7/2013 (ID 2140502)
Bentonite spill 40 gallons.
Potential exists for further discharges
Sediment-laden water into Big Bottom Run EV.
Sediment-laden water into Big Bottom Run EV.
Potential exists for further discharges
Erosion and sedimentation not minimized.
Erosion and sedimentation not minimized.
Sediment into stream from bank failure

Muddy water being held back from stream by silt fence. Water almost at top of fence. Thaw and snow melt could overwhelm controls. UNT is immediately next to E&S controls.
4/4/13 waterbar links to trench and trench to sump. Taking water off ROW .
Water bars are funneling water into pipeline trench. Water is flowing down pipeline trench causing accelerated erosion
35 P.S. 691.401 CSL for series of inadvertent returns. Some bentonite released to two wetlands and unnamed tributary. Bentonite recovered and areas stabilized at time of inspection. TLT
1. Erosion rills on ROW from 52+00 to 50+00
2. behind soil stock pile from 50+00 to 48+00
3. behind soil stock pile and outside LOD from 48+00 to 44+00
1. Erosion rills on ROW from 52+00 to 50+00
2. behind soil stock pile from 50+00 to 48+00
3. behind soil stock pile and outside LOD from 48+00 to 44+00

21+5 E&S controls not maintained, not functioning to prevent discharges.
Discharge into BBR sufficient to discolor the run.
Discharge into BBR sufficient to discolor the run.
21+5 E&S controls not maintained, not functioning to prevent discharges.
21+5 E&S controls not maintained, not functioning to prevent discharges.

Failure to properly construct water bars on 30% grade.
Downslope from Nelson pad and near intersection with Bahr Rd. Deep eroison gullies on ROW, topsoil gone, rocks at surface, failure to stabilize.
102.4(b)(2) Failure to follow the plan

Minimize E&S. Waterbar outlets overtopped, some signs of continuing erosion behind soil stockpile -- previously inspected locations.
114+00 to 124+00, waterbars failed during rain event, failure caused substantial enhanced erosion and sedimentation.
122.4(b)(2) Failure to follow plan. "where signs of accelerated erosion, repair and aid BMPs as needed to eliminate problem".
Discharge of sediment to UNT to Black Creek (EV). Discharge reported in.
Despite previous inspection report (6/20/13) identifying issues with excessive water and inadequate water bars on another section of ROW, similar issues were allowed to develop on slope above UNT to Black Creek.
Large linear extent of open trench. Project does not seem to be progressing in fashion aimed at minimizing extent and duration of earth disturbance.
Discharge of sediment-laden water into complainant's pond, then into stream and wetland.
Sediment laden discharge to UNT to Payne Creek, trench on other side of 487 was open, water flowed down trench like conduit, overtopped, eroded soil stockpile, got into drain crossed below road emerged on other side and got into creek
102.4(b)(4)(1) Failure to minimize extent and duration of earth disturbance -- open trench, > than 500', no trench plugs.

First stream from Curtin well pad: bank collapse due to water coming off sloping work area. Area had been stabilized and water bars were in place, but were overwhelmed. Location being repaired during my inspection.
A failed waterbar resulted in the discharge of sediment laden water into a stream. The discharge was reported and the waterbar repaired.
A failed waterbar resulted in the discharge of sediment laden water into a stream. The discharge was reported and the waterbar repaired.
102.7 NOT submitted when project does not meet submission criteria.
Title 25 Pa. Code § 102.4(b)(2). Failure to impliment written E&S plan, failure to restore stream bed and banks as described in the E&S plan details.
Title 25 § 102.4(b)(1). Failure to minimize the potential for accelerated erosion and sedimentation. Sediment from a slough entered into Tributary 29599 to Brewer Creek (WWF, MF).
Title 35 PS § 691.401. Discharge of pollutional material to waters of Commonwealth. Sediment from a slough entered into Tributary 29599 to Brewer Creek (WWF, MF).
Title 25 Pa.Code § 102.4(b)(2). Failure to impliment written E&S plan, failure to stabilize a slope greater than 3H:1V with erosion matting.
Title 25 Pa. Code § 102.4(b)(1). Failure to minimize accelerated erosion.
Title 35 P.S. § 691.401. Discharge of poluutional material to waters of the commonwealth.
Faiulre to follow the plan - 102.4(b)(2). Erosion control matting and some of the waterbars.
102.4(b)(1) -- subsidence along pipe trench led to 800' gully that channeled water flow and caused accelerated erosion and sedimentation.
Sediment-laden water entering stream. Stream was already turbid due to rain, but downstream appeared worse. Took samples.
Sediment-laden water entering stream. Stream was already turbid due to rain, but downstream appeared worse. Took samples.
102.4(b)(1) -- subsidence along pipe trench led to 800' gully that channeled water flow and caused accelerated erosion and sedimentation.
Enhanced erosion and sedimentation at base of Norton field. Silt sock moved, water bars improved, straw used to stem water flow.
102.4(b)(2) Failure to follow the plan. PAR-1 depicted as requiring construction.
Dykes Rd -- Construction sequence specifies early installation of RCEs.
Internal reports from 5/22/14 show discharge from PAR-1. Whether this reached the UNT is unknown because the path from the pad to the pad ditch to the wetland and UNT was not investigated at the time.
Internal reports from 5/22/14 show discharge from PAR-1. Whether this reached the UNT is unknown because the path from the pad to the pad ditch to the wetland and UNT was not investigated at the time.
Pollutional discharge into UNT to Kings Creek (EV) and EV wetland following rain event.
Pollutional discharge into UNT to Kings Creek (EV) and EV wetland following rain event.
102.4(b)(2) Failure to follow the plan. PAR-1 depicted as requiring construction.
Dykes Rd -- Construction sequence specifies early installation of RCEs.
PAR-1 off Rain pad access road, under use without appropriate construction or BMPs.
Dykes Rd -- RCEs not installed.
PAR-1 off Rain pad access road, under use without appropriate construction or BMPs.
Dykes Rd -- RCEs not installed.

Sediment off the LOD
Failure to improve and maintain E&S controls on slips for approximately 4 months constitued a potential for further pollution.
For land slip near Hoagland Branch, plans and field inspection indicate a wetland at the base of the hill where the slip occurred. Portions of wetland covered with thick layer (at least several inches) of sediment. Erosion control measures in place in w
Conditions on the two slips have deteriorated since last inspection in March. Accumulation of sediment at bottom of slope and presence of erosion ruts on slope indicated that accelerated erosion and sedimentation were not minimized.
IMPLEMENTATION OF WORK ACCORDING TO SPECIFICATIONS - Permittee failed to conduct work in accordance with the maps, plans, profiles and specifications as approved by the Department for work undertaken under a permit or other De

Failure to comply with permit
Failure to comply with permit
Appropriate BMPs not implemented to prevent sedimentation in Waters of the Commonwealth
Appropriate BMPs not implemented to prevent sedimentation in Waters of the Commonwealth

102.4(b)5 - not marking east fill slope berm on plan. failure to depict type and location of BMPs.
102.4(b)7 - failure to maintain current E&S controls on site.
102.4(b)(1) - failure to correctly install erosion control matting.
102.4(b)8 failure to provide inspection and monitoring records at the project site.

Ditch created along western fill slope BMPs not installed.

102.4(b)(1) Failure to minimize the potential for accelerated erosion and sedimentation. New ditch from the northern slope down to the creek

102.4(b)1 Hummocky piles of earth clods and rock draped with matting do not constitute BMPs.

Northwest slope failure. Muddy water travelling down ditch to UNT to Sugar Run. Run-off caused ditch 2' deep and 3' wide.

Fill slope is 70-80% unvegetated. Cut slope is approximately 60% unvegetated. Topsoil on cut slope has almost entirely washed away. Topsoil and reseeding required.

South side of disturbance has erosion of cut bank. Two gullies formed from run-off of 1.5:1 cut slope. A rebuilding of the drainage ditch with stone would remedy the erosion.
Slopes were hydroseeded at the same time. Heavy rain washed out the slopes.
Slopes were hydroseeded at the same time. Heavy rain washed out the slopes.
Oil in and around well cellar.

Drill cuttings mixed with what looks like gypsum on pad surface, as well as left on liner
Erosion control blandet does not have full contact with underlying soil surface, Lack of vegetation establishment, Silt Sock installed off contour.
Methane release to waters of Commonwealth.
Venting of gas.

water samples collected from the private water supply well showed dissolved methane
methane in the headspace of private water supply

Failure to contain brine after a fracking operation.

Discharge of brine after fracking.
Discharge of brine after fracking job. No discharge to stream.
Discharge of brine after fracking job. No discharge to stream.
Discharge of brine after fracking.
Failure to contain brine after a fracking operation.
Impacted soil/rock removed, confirmatory sampling recd 5/4/2012. This NOV to be closed as part of eFacts data cleanup.

Actual violation is 6018.401Failure to properly store, transport, process or dispose of a hazardous waste.

Runoff along access road has channelled under CFS-2 in two areas. One completely under area when sock was installed. Water flows across road and through CDC-1. Sediment-laden water discharging from cross culvert and off LOD.

In northern quadrant of pad: water with elevated conductivity and high Sr, Ba on pad.
30 gallon flowback spill
30 gallon flowback spill

On access road, 6 patches of petroleum product staining, approx 10 x 4 each, spread over approx. 200'. Absorbant pad visible on lowest patch -- there was an attempt to mitigate. Clear info concerning time of spill not available.

1-2 barrel spill of reuse water. Chief conducted appropriate remediation

Spill date and time: 8/19/2015 10:30am
A mist of 3-4 barrels of hydraulic oil was released from a hydraulic reservoir when the rig was being lowered. Approximately 1 barrel left containment. The soil and pad surface were scraped down to remove the contaminated material. The oil sprayed into a sediment pond below the fill slope of the pad. The water was removed and placed within a baker tank. The waste manifest for the baker tank and roll-off containers will be forwarded to the Department once they are available. No hydraulic oil was found during the Department's inspection. Clean-up complete. Violations Immediately Corrected.
The 6H well is finished drilling and the rig was being broken down. All drilling is complete at this location. All materials used for drilling kept on containment.
Inspector's Opinion: The site spill was cleaned up quickly and completely.

Sediment leaving the access road, entering waters of the commonwealth
Sediment leaving the access road, entering waters of the commonwealth
Heavy equipment leaking hydraulic fluid on work site. Adsorptive pads used. Contaminated soil was excavated and sent to waste facility.

Irvin Compressor Station compressor oil release

Water (with sheen) leaving well pad due to poor design/construction of containment.
Erosion gully extends from just below pad surface, down toe of slope and outside LOD.
Containment collecting water with sheen that is getting off the pad because the containment berm is compromised.
Erosion channel extending from just below pad on north side of pad, extends down toe of slope.
Diesil spilled near southwest area of pad on 8/9/11 repored by company, about 10 gallons reported. Site inspection on 8/16/11 showed that area had been excavated and two roll-off's. So there was a violation, but it was immediately corrected

Based on color and conductivity, this contaminated water was traced down a water diversion trentch. This water then moved into a rock-line trench and could not be traced.
Cuttings containers located right on edge of pad on eastern side. Cuttings off pad, off containment and in ditch. Ditch has high conductivity (5mS/cm) -- took sample 2371 130, and 2371 131 -- also from a near pad puddle but lower conductivity.
Cutting are a resideual waste they were not being properly stored.
Petroleum product was found staining pad gravel and also underneath apparently clean gravel. In addition contaiminated water from cellars was running onto unlined pad. the location of the spills was to the east and south of the 3 wells. Sam: 23711
W edge pad -- water with Fe-fix bacteria plus possibly chemical - vacced up. Cellars -- spent mud = excavated. W side near condensate - white stain, poss. lubricant -- removed.
While site being cleaned after rig move, found oily water off containment on SW portion. Immediately vacced up.
7 Baker tanks full of high conductivity fluid located to side of access road, not on pad. Location: 41, 20', 44.1", 76, 38', 01.2" . This constitutes an unpermitted transfer station. the site was referred to the Department's Waste Management Program.
high C puddles at entrance to pad. Tracked out by site traffic?

Fluids transferred to this location, stored, then transferred to another location (Falk)

Entrance to pad has not been adequately addressed (frac sand and mud associated with high conductivity puddles)
78.57 cited in report, e-facts doesn't conform. Puddles that exceed limit of detection (>19.9mS/cm) white salty crusts on soil, damp soil with high conductiviyt around and potentially underneath NE tank battery (approximately 35,000 square feet).

6018.610(2) cited. E-facts not compatible. Operation of an unpermitted transfer station. Produced fluids trucked from Houseknecht to Falk then piped to Kensinger.
6018.610(2) cited. E-facts not compatible. Operation of an unpermitted transfer station. Produced fluids trucked from Houseknecht to Falk then piped to Kensinger.

78.57 cited in report, e-facts doesn't conform. Puddles that exceed limit of detection (>19.9mS/cm) white salty crusts on soil, damp soil with high conductiviyt around and potentially underneath NE tank battery (approximately 35,000 square feet).
102.4(b)2: failure to follow plan. construction sequence specifies that access road be stabilized before major pad work. Access road not stabilized, pad work near completion, impoundment work started.
78.57(a) Control of produced fluids. High conductivity fluids were found on the pad under the liner and off the pad near the NW corner

High conductivity fluids were found under containment and off the pad
hoses connecting trash pump to filter unit on bare pad, not containment. High conductivity puddles indicate there were leaks. Being fixed when I arrived.
Spill left the site into a drainage ditch and into a sedimentation basin.
Spill left the site into a drainage ditch and into a sedimentation basin.

mS/cm.

Failure to properly store, transport, process or dispose of a residual waste.
Violation cited was 78.56(a). Failure to contain pollutional substances and wastes from altering/completing a well.
Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution
Cited 78.56(a) on NOV. Failure to properly control or dispose of industrial or residual waste to prevent pollution of the waters of the Commonwealth.
Failure to properly store, transport, process or dispose of a residual waste.

IR of drill mud flowed over 400 feet to stream
IR of drill mud into Georges creek- aprx -50 gal
20 gallons drill mud into Unnamed Trib to Jacobs Creek
20 gallons drill mud into Unnamed Trib to Jacobs Creek
Discharged water of pH 3.36 onto pasture field from pipeline

work performed outside LOD

102.8 - Operator failed to complete, implement and minimize impervious areas as outlined in the PCSM plan.

extra pumpjack on location.
Junk left on location.
78.57(a) discharge to ground
402(a) potential pollution
Discharge to ground
Discharge to ground.
402(a) potential pollution
Discharge to ground.
Elect. pole and pipeline on location
No permit number
Elect pole and pipeline on location.
Elect pole and pipeline on location.

78.57(a) - Discharge of produced fluids to the ground.
~1bbl of crude oil releaed during plugging operation. Cited in NOV - CSL 301/307, SWMA 301, O&G 78.54 and 78.60 (a)
~1bbl of crude oil releaed during plugging operation. Cited in NOV - CSL 301/307, SWMA 301, O&G 78.54 and 78.60 (a)
Abandoned Tank off-site of this well pad. Crude oil discharge to the ground and into a pond which feeds into an UNT of TenMile Creek. Violations of SWMA 301, CSL 301/307/401

402(a) - Conducting an activity which may result in Potential Pollution
Discharge of Residual Waste to the ground
Failure to properly control and dispose of Production Fluids

small amout of frac fluids to the ground

site reclaimed, not seeded or mulched.

Release signed.

Tne integrity of the well has been compromised, gas is venting to atmosphere between the top of the well casing and a 2" shut-off valve

Inadvertent Return of bentonite drilling mud into an UNT of Pigeon Creek near Grange Road in Fallowfield Twp during HDD bore. Violation of Clean Streams Law 301/307/401 and SWMA 301.
Mud/sediment discharged outside of LOD (BMP failure) and material not cleaned up - unknown when discharge occurred. Violation of 102.4(b)(1), 102.11, CSL 402.
Request for schedule of work to replace tanks and clean up spill

equipment left on lease
equipment left on lease
equipment left on lease

violations not attributed to MarkWest

violations not attributed to MarkWest

IR of bentonite to Wolf Run (CSL 301/307/401/402 and onto ground (SWMA 301).
IR of bentonite to Wolf Run (CSL 301/307/401/402 and onto ground (SWMA 301).

IR of bentonite drilling mud to Wolf Run (HQ) - violation of CSL 301/307/401/402 and discharged onto the ground (bubbling up in several areas) - violation of SWMA 301.
IR of bentonite drilling mud to Wolf Run (HQ) - violation of CSL 301/307/401/402 and discharged onto the ground (bubbling up in several areas) - violation of SWMA 301.
IR of drilling mud (bentonite)orignal area of Wolf Run (HQ) (violation of CSL 301/307/401/402) and also surfaced up into the ground (violation of SWMA 301) due to the vertical relief bore hole got clogged (loss of return from pump in vertical bore).
IR of drilling mud (bentonite)orignal area of Wolf Run (HQ) (violation of CSL 301/307/401/402) and also surfaced up into the ground (violation of SWMA 301) due to the vertical relief bore hole got clogged (loss of return from pump in vertical bore).
Failure of clamped fitting on the flex hose of the return line - mud onto road and ~50 gallons entered Wolf Run - Violation of CSL 301/307/401/402 and SWMA 301
Incident occurred during site inspection for release event on 4/8/13. Sudden influx of large amount of drilling mud which exceeded capacity of pump and return line - ~4bbls discharged to the ground - no waterways impacted.
Incident occurred during site inspection for release event on 4/8/13. Sudden influx of large amount of drilling mud which exceeded capacity of pump and return line - ~4bbls discharged to the ground - no waterways impacted.
Failure of clamped fitting on the flex hose of the return line - mud onto road and ~50 gallons entered Wolf Run - Violation of CSL 301/307/401/402 and SWMA 301
2nd instance of fitting failure - most of mud went through crossdrain (some along roadway) - ~25 gallons entered Wolf Run - violation of CSL 301/307/401/402 and SWMA 301
2nd instance of fitting failure - most of mud went through crossdrain (some along roadway) - ~25 gallons entered Wolf Run - violation of CSL 301/307/401/402 and SWMA 301
Continuation of IR - "additional gray water is seeping from location 2"
IR to UNT to Robinson Fork and to the ground - violation of CSL 301/307/401/402 and SWMA 301
IR to UNT to Robinson Fork and wetland - violations of CSL (301/307/401/402) and SWMA 301.
IR to UNT to Buffalo Creek (HQ-WWF) - Bentonite to stream - violation of CSL 301/307/401/402.
2nd IR (to different area of stream) + surfacing in floodway/hillside. Violation of CSL 301/307/401/402 and SWMA 301
Operator was pumping the IR (3/8/13) up the hill to the top and into a filter bag which was not completely cleaning the water. Gray water was observed discharging to the ground - seeps were also noted in the hillside "only when pumping".

Notification of IR adjacent to stream (SWMA).

IR into SC-40 - notified during travel to site to inspect for IR on 4/23/13.

Written response to NOV requested.

Permit expired on 4/3/2011 - well never drilled. Property owner has been trying to get operator to restore property for a long time with little response. Drill pit (never used) is still recognizable onsite. Site is not permanently stabilized.

Operator did not submit monthly totals brine spreading. eFACTS does not have proper violation as written on the NOV. The actual violation is SWMA 302 but falls under the 301 code.

Brine discharge.
Brine discharge.

NO monument in place.
Well was supposed to have the casing cut off and a marker of metal with the registration number on it to be buried under plow depth.
Game Lands.
Poles and electric wire on site.
Pits have not been filled in.
No monument.
This well was to have the casing cut off below plow depth.
Game Lands.
Some pipe and tubing on site.
Pit needs filled in.
Tank on site.

Fitting on mud pump was not property tighten and when rig crew circulated drill cuttings from well bore mud gel was discharged onto the surface. Rig crew did contain the drill mud from leaving the well site.

Resolved by signed agreement between Rudys and Great Lakes.
High pressure air line from BOP to control valve at nitrogen tank was not connected and BOP visual checks not being logged in operators log book
07/11/2002 New E & S controls has been constructed surface area where violation occoured has been mulched. No E & S problems at this time.

frac fluids and frac sand has been discharged outside the containment
area of drilling pit. A 10 ft. verticle Tear in 20 ml pit liner on North side of drilling
pit allowing frac fluids to flow behind liner. (pictures on file)

Note: Corrections were well underway at therig (by the rig crew) to stop impact and further loss of matterials prior to my arrival, and subsequint questions.
 Three actual charges in one NOV, but I couldn't find them in the computer. Copies in Paper file

Stream waiver not implemented.
Stream waiver not implemented.
Silt discharge.
Silt discharge.

Liquid residual waste was discharged to ground through tear in pit liner. Waste seeped through pit wall and killed grass for approx. 100 ft downgradient.

Operator failed to properly collect and store production fluids (recycled frac) which resulted in a residual waste discharge to the ground. The recycled frac water was released from a transfer line. 78.54, 78.57 (a)

Oil on liner. Liner had holes and tears.

Bubbling in the annulus of the 9 5/8 x 13 3/8 casing
Bubbling in the annulus of the 9 5/8 x 13 3/8 casing

Drill mud on pad

Pit contents removed; soil testing performed and ok to close pit

25-30 gallons of diesel fuel was released to the ground due to a pump failure. Weavertown was immediately contracted to clean up the spill. Department requested disposal records during the original inspection.
25-30 gallons of diesel fuel was released to the ground due to a pump failure. Weavertown was immediately contracted to clean up the spill. Department requested disposal records during the original inspection.

Diesel fuel spill - ~7gallons released, found during trench excavation for conduit installaiton. Weavertown contracted and release immediately cleaned up.
Diesel fuel spill - ~7gallons released, found during trench excavation for conduit installaiton. Weavertown contracted and release immediately cleaned up.
1-2 barrels of flowback was discharged to the ground due to a line break in a transfer line. Weavertown was immediately contracted for cleanup.
1-2 barrels of flowback was discharged to the well pad due to a line break in a transfer hose. Weavertown was immediately contracted for cleanup.
~10 gallons of brine condensate was released to the ground as a spray due to equipment failure; 35 PS 6018.301, 302 (a).
~10 gallons of brine condensate was released to the ground as a spray due to equipment failure; 35 PS 6018.301, 302 (a).
~10 gallons of brine/condensate was released as a spray due to equipment failure (broken bolt on linkage to mechanical dump) from the pressure relief valve on the separator.
~10 gallons of brine/condensate was released as a spray due to equipment failure (broken bolt on linkage to mechanical dump) from the pressure relief valve on the separator.
Recycled frac fluid released from secondary containment which held staged transfer tanks. Faulty check valve on tank and hole in secondary containment led to release of ~3-5 bbls to the ground.
SWMA 35 PS 6018.301 and 302(a). Estimated 3-5 bbls of recycled frac water released to the ground from secondary containment of transfer tanks.
SWMA 35 PS 6018.301 and 302(a). Estimated 3-5 bbls of recycled frac water released to the ground from secondary containment of transfer tanks.
Recycled frac fluid released from secondary containment which held staged transfer tanks. Faulty check valve on tank and hole in secondary containment led to release of ~3-5 bbls to the ground.

Vandalism incident - rubber line cut on the foam injection unit. Cited 78.54 and SWMA 301.

An unspecified amount of diesel fuel was released to a spring running under the well pad
Failure to contain diesel which is considered waste once it makes contact with teh soils and water
Failure to contain an unspecified amount of diesel fuel released to the ground under the surface of the well pad

Release of approximately 3 barrels of treated flowback to ground water under the well pad
Failure to contain residual waste in a wheeled tank due to failure of manifold clamp
30 gallon diesel fuel spill to the ground

~50 gallons of brine water was released onto the well pad. Also cited 78.57(a) and SWMA 301.
~50 gallons of brine water was released onto the well pad. Also cited 78.57(a) and SWMA 301.

Issues on the Coal Mine Rd (Access Rd.) were addressed quickly and further improvements continue.
Issues on the Coal Mine Rd (Access Rd.) were addressed quickly and further improvements continue.

SWMA 301, O&G 78.54, 78.56(a) - 20 gallon drilling mud release to the ground from the transfer hose to the frac tank.
O&G 78.54, 78.56 (a) and SWMA 301 - 6 bbl water/soap mixture release through the flare stack. 5 bbls into containment and ~1bbl released as a mist onto the ground. Gravel and mulch immediately excavated.

25 Pa. Code § 78.57(a)
CONTROL, STORAGE AND DISPOSAL OF PRODUCTION FLUIDS – Operator failed to collect the brine and other fluids produced during operation, service and plugging of the well in a tank, pit or a series of pits or tanks, or other device approved by the Department or Operator discharged brine or other fluids on or into the ground or into waters of the Commonwealth.

range successfully rebutted presumption, therefor no violation of law existed. DC

5%/volume combustible gas at 13-3/8" x 9-5/8" annular vent.

Operator reported a >5 gallon release of reuse water (produced water, flowback) through failed patches in containment. Area was vacced and scraped; followup by inspector found elevated conductance still prevailed in this area.
Operator reported a >5 gallon release of reuse water (produced water, flowback) through failed patches in containment. Area was vacced and scraped; followup by inspector found elevated conductance still prevailed in this area.
Operator reported a >5 gallon release of reuse water (produced water, flowback) through failed patches in containment. Area was vacced and scraped; followup by inspector found elevated conductance still prevailed in this area.

Gas line still suspended over creek.
Gas line still suspended over creek.
Gas line still suspended over creek.

Erosion of fill side of well pad from overflowing pit. Sediment from erosion migrated down through woods area into a tributary of Leatherwood Creek.
Lack of BMPs on access road allowing runoff to be directed into the residual waste pit. No filter fence or haybails downslope of wellpad allowed migration of sediment offsite and discharge into stream.

3211(c) Failure to designate an agent.
3211(c) Failure to designate an agent.
See Insp ID 1879315 done 4/26/2010, past viols corrected, case closed.

Slope failure
Slope failure and basin maint.
Sediment discharge into stream. Recurring violation. Last Violation noted on 4/23/2015 (Inspection ID 236992).

unpermitted discharge of sediment to waters of the Commonwealth from Poorman compressor station (related to complaints 312388 & 313289)

Unpermitted access road to ROW was utilized by the contractor. Contractor failed to implement best management practices on alterations that had been made to the pre-existing road.
The banks of the UNT to Newton Creek have collapsed and the installed BMP's have failed or have been destroyed resulting in accelerated erosion and a loss of sediment.
The banks of the UNT to Newton Creek have collapsed and the installed BMP's have failed or have been destroyed resulting in accelerated erosion and a loss of sediment.Sediment-laden water was actively flowing in the stream.
The banks of the UNT to Newton Creek have collapsed and the installed BMP's have failed or have been destroyed resulting in accelerated erosion and a loss of sediment.Sediment-laden water was actively flowing in the stream.
The banks of the UNT to Newton Creek have collapsed and the installed BMP's have failed or have been destroyed resulting in accelerated erosion and a loss of sediment.

Section 56+16.87 to 60+59.92 (travelling north up hill from the soybean field next to Katy's Country Store off Rt 220., no waterbars, water running down ROW. At first stream crossing in this section no E&S controls.
Section 56+16.87 to 60+59.92 (travelling north up hill from the soybean field next to Katy's Country Store off Rt 220., no waterbars, water running down ROW. At first stream crossing in this section no E&S controls.
An inadvertent return of bentonite clay to surface (bank of Towanda Creek) occurred at 1410 near station 178+50. Release occurred during the pulling of the pipe.
A sediment discharge from a pipeline ROW to an UNT to Muncy Creek (HQ, CWF, MF).
A sediment discharge from a pipeline ROW to an UNT to Muncy Creek (HQ, CWF, MF).

Champion Hill Rd crossing #1: Waterbar flows into downslope ditch ends above Champion Hill Rd. Enhanced erosion in ditch, discharge above road. No controls to slow water, minimize erosion in dtich. Immediately corrected.
Failure to minimize the potential for accelerated erosion.
Sediment laden water from permitted site entered one wetland and two stream (EV, MF).

Final report submitted 10/19/15. See also Insp ID 2154327. Site ID 731298 KORBAN TO PHELPS NG PL

Potential for 50 brls of released production fluid to enter ground/surface waters

significant amounts of mud in wetland, creek and trib from frac-outs. Inspection due to complaint.
production water constitues a residual waste.

cut slope erosion

Potential for hydraulic stimulation fluids to enter Waters of the Commonwealth
hydraulic stimulation fluids on ground

Release of contaminated liquid waste onto ground.
potential for production fluid to enter ground water
102.4(b)(8) operator unable to produce documentation for requested E&S inspections.
Cut Bank has bank failure behind separators.
Hyd oil on ground

Release of Production or frac water
Discharge of 1-2 gallons bentonite into stream.
25 GALLONS OF DRILLING MUD DISCHARGED INTO MR FEUSNERS FIELD
Utilize other measures or controls that prevent or minimize the generation of increased stormwater runoff.

Failure to implement best management practices (BMPs) to minimize the potential for accelerated erosion and sedimentation to waters of the Commonwealth.

soild stained 10'x20', 15.9 mS/cm

IRTS of 50 gallons of bentonite/water mixture into Wappasening Creek (CWF, MF). Sandbag containment and a bladder diversion system was adequately controlling the situation.

Sediment was discharged into an unnamed tributary to Pendleton Creek.
The installed E+S controls were unable to prevent sediment from entering the stream and leaving the site.
Failure to minimize the potential of accelerated erosion and sedimenation.
Two sediment discharges to UNT to Parks Creek - CWF, MF.

Failure to restore well site within nine months of completion of drilling of a well. ESCGP-2 issued and 2-yr restoration extension granted.
Violation of Title 35 PS § 6018.301. Failure to properly store, transport, process or dispose of a residual waste.
Violation of Title 35 PS § 691.402. Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
Violation of Title 58 Pa.C.S. § 3218.2(a). Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.
Violation of Title 35 PS § 3018.301. Failure to properly store transport or dispose of residual waste.
Violation of Title 35 PS § 691.402. Failure to adopt pollution prevention measures required or prescribed by DEP by handling materials that create a danger of pollution.
Title 35 P.S. § 691.401. Discharge of pollutional material to waters of the commonwealth.
Title 25 Pa. Code § 102.4(b)(1). Failure to minimize accelerated erosion.
Sediment laden water was observed flowing from the ROW to an UNT to Wappasenning Creek.
Sediment laden water was observed flowing from the ROW to an UNT to Wappasenning Creek.
Violation of Title 35 P.S. § 691.401. Discharge of sediment laden water to stream.
Flowback release apparent - Unintentional duplicate of Enf 311032
Fracturing waste liquid in soil/puddles - Unintentional duplicate of Enf 311032
Contaminated drainage from pad could enter Waters of the Commonwealth. - Unintentional duplicate of Enf 311032
Violation of Title 25 Pa. Code § 102.4(b)(1). Failure to minimize the potential for accelerated erosion as evidenced by discharge of sediment from project.

Talisman reported release of ~5 gallons of produced water to pad surface during plugging operations.
Talisman reported release of ~5 gallons of produced water to pad surface during plugging operations.
Talisman reported release of ~5 gallons of produced water to pad surface during plugging operations.

9-5/8" 4-1/2" annulus is cemented to surface. 5% methane at vent, indicating defective cement.
Failure to contain a pollutional substance in a properly lined pit or tank.
Potential for pollutional substances to enter the waters of the commonwealth.
Failure to properly store, transport, process or dispose of a residual waste.
Failure to design and construct unconventional well site to prevent spills to the ground surface and off well site.

Subject: RE: Seneca Storage Container

Kevin.

I just heard back from Harrisburg this morning. We will allow Seneca to keep the container at that site. The location is on an area in which the gas rights have been severed and are owned by Seneca. Hbg. believes the rights owned by Seneca generally allow them to have buildings and structures etc. related to their operations. I explained DEP regs as you described them to me. Because the container is located on an existing well site, it is not causing any negative impact to the gameland and is not negatively affecting our ability to manage the land for wildlife and the sportsmen.

Do you need anything more formal, or will this email suffice?

Len Groshek
Land Management Group Supervisor
PA Game Commission
Elk & McKean Counties

Department has not been provided a key to access Seneca Resources' sites. An attempt to contact the operator was unsuccessful due to lack of cell service.

Failure to provide free and unrestricted access constitutes a violation of Section 3258(b) of 58 Pa.C.S. §§ 3201-3274 (relating to Development) ("2012 Oil and Gas Act") which requires the owner, operator or other person in charge of a property, facility, operation or activity under this chapter, upon presentation of proper identification and purpose either for inspection or to remediate or otherwise respond to a well control emergency, by agents or employees of the department, shall provide free and unrestricted entry and access. I departed the site @1130 hours.

Act 2 remediation sought and approved

Discharge of sediment-laden water to Bowman's Creek.
Failure to minimize accelerated erosion and sedimentation to Bowman's Creek.
Failure to minimize accelerated erosion and sedimentation to Bowman's Creek.
Discharge of sediment-laden water to Bowman's Creek.

Sediment discharge to waters of the Commonwealth.
BMPs not maintained, some measures not built or instituted. Well site in High Quality watershed and no additional required measures are being instituted such as channels, collectors, and diversions being lined with non-erosive materials.
Sediment discharge to waters of the Commonwealth.

BMPs not maintained, some measures not built or instituted. Well site in High Quality watershed and no additional required measures are being instituted such as channels, collectors, and diversions being lined with non-erosive materials.

See Insp ID 1826491 conducted 8/27/09, past viols cited in Enf ID 249370 at Insp ID 1821865 corrected, company response rec'vd 9/5/09. MBC 9/9/09
102.4(b)(1) improper silt fence installation
Written response rec'vd w/pictures 9/30/09, adequate steps take to abate viols, case closed. MBC 01/15/10

See Insp ID 1869844 done 3/15/10, past viol closed.

failure to stabilze resulting in CSL401
sediment runoff into deliniated wetland

site restored to the best of their ability. $7500 donated to PWRP

See Insp 1875649 done 4/8/10, past viols closed.
Accelerated erosion on cut slope and impoundment embankment; sediment observed approx 50' beyond perimeter silt fence; sediment observed past silt fence below stilling basin directing towards roadside ditch. TLT

Outstanding violation from 3/17/10 inspection. Accumulated sediment in ditches and above perimeter BMP's needs to be cleaned out and removed. TLT
See Insp ID 1889613 done 6/7/10, past 102.4 viols corrected.
691.401 CSL. Frac out occurred while boring under Elk Run (EV) for the Ken-Ton to Bergey waterline. Bentonite drilling mud got into Elk Run and an associated wetland. TLT
691.401 CSL. Frac out occurred while boring under Elk Run (EV) for the Ken-Ton to Bergey waterline. Bentonite drilling mud got into Elk Run and an associated wetland. TLT

SWMA 301 for discharge of residual waste. 2519-075 sample results of fluid around the 2H well head show elevated chloride, strontium, TDS, and specific conductance levels. TLT

2519-075 sample results confirm that fluid around the 2H well head is a pollutional substance. Results showed elevated chloride, strontium, TDS and specific conductance concentrations. Results received 11-24-10. TLT

BMP's not installed per plan; construction sequence not followed.

CSL 402 for potential to pollute Waters of the Commonwealth. 5300 gallon flowback release outside of containment. Release location within an EV watershed. TLT
CSL 402 for potential to pollute Waters of the Commonwealth. 5300 gallon flowback release outside of containment. Release location within an EV watershed. TLT
SWMA 301 for an unpermitted discharge of residual waste. 5300 gallons of flowback released from a frac tank, most of which was released onto the ground. TLT
SWMA 301 for an unpermitted discharge of residual waste. 5300 gallons of flowback released from a frac tank, most of which was released onto the ground. TLT

No matting on toe of slope. Compost sock triangles not properly staked.
high conductivity water leaking down cut slope from water tank containment.
Mud on pad surface 2 ft thick in places. Should be gravel.

SWMA 6018.301 for an unpermitted discharge of residual waste. 12 bbls production fluid spilled on ground. TLT
CSL 402 for potential to pollute waters of the Commonwealth. 12 bbls production fluids spilled onto the ground. TLT
102.4(b)(1) for failure to implement BMP's to minimize erosion. Many BMP's either not implemented or improperly implemented. Entire site constructed. Total disturbance apporx. 21 acres. TLT

The Rock Construction Entrance (RCE) was covered in mud and no longer functioning and the rock lined conveyance channel on the north side of the pad was filled with sediment and must be maintained. This is a violation of 25 PA Code §102.4(b)
There were frac tanks located on a liner that had a tear in it. The liquid on the liner had an elevated reading for specific conductivity. This is a violation of 35 PS §6018.301 discharge of residual waste. MRN
The surface of the pad was in poor condition resulting in sediment leaving the pad. MRN
102.4(b)(1) for failure to minimize the potential for accelerated erosion. Erosion gully observed extending from pad surface to toe of east fill slope. TLT

Operator did not submit monthly totals brine spreading. eFACTS does not have proper violation as written on the NOV. The actual violation is SWMA 302 but falls under the 301 code.
Brine tank near this well had overflowed a little.

My inspection revealed discharge of brine and/or production fluids on the Conklin Lease from an underground pipeline. The fluids were limited to the surface and were containted.
My inspection revealed discharge of brine and/or production fluids on the Conklin Lease from an underground pipeline. The fluids were limited to the surface and were containted.
Spill from stock tank poses threat to Irvine Run.

Corrected (05/13/2011): Site cleaned up and no longer poses threat to Irvine Run.
Spill from stock tank poses threat to Irvine Run.

Corrected (05/13/2011): Site cleaned up and no longer poses threat to Irvine Run.

78.73 b did not cement conductor after hitting fresh ground water
78.82 (2) did not prevent fluids from eneteing the fresh ground water. did not cement condutor

Todd Landis Replaced leaking valve for owner.

78.85 f, cement tickets not on site for review.

allowed hydraulic oil and engine oil to leak onto the ground

102.4(b)(1)

Well-site was re-permitted as 005-31136.

repermitted 005-3136
Well re-permitted as 005-31171.

Maintenance
Maintenance
Maintenance

Rocks pushed over pad and over sediment fence.

102.4(b)(1)

Failure to maintain the culvert. It has completely clogged and the water is now flowing over the access road.

Springville Compression Station
No temporary stabilization installed on site.
No temporary stabilization installed on site.

Discovered another hydraulic fluid spill and drilling mud during inspection. Cleanup-crew responded while I was on site.

No temporary stabilization. Creamery Road Site: 41 degree, 25 minutes, 40.9794 seconds North, 75 degrees, 55 minutes, 37.632 seconds.
No temporary stabilization. Creamery Road Site: 41 degree, 25 minutes, 40.9794 seconds North, 75 degrees, 55 minutes, 37.632 seconds.
Project-wide lack of temporary stabilization (25 Pa Code 102.22 (b)) From August 24 thru October 7, 2011.

Sediment discharged to Horton Creek.
Failures of several E & S Controls contributing to discharge of sediment to Horton Creek at various locations between Shlesser Road and HWY 1008. Failure to maintain existing BMPs and install temporary stabilization.
Failures of several E & S Controls contributing to discharge of sediment to Horton Creek at various locations between Shlesser Road and HWY 1008. Failure to maintain existing BMPs and install temporary stabilization.

Sediment discharged to Horton Creek.

No temporary stabilization.
Discharge of sediment-laden water to UNT of Whitelock Creek. Whitelock Creek is a protected stream designated as Cold Water Fishery.
Minimal controls on the slope. Existing controls have been innundated and overcome by sediment laden water. No temporary stabilization has been installed to minimize sediment loss. Sediment discharges along several points.
Minimal controls on the slope. Existing controls have been innundated and overcome by sediment laden water. No temporary stabilization has been installed to minimize sediment loss. Sediment discharges along several points.
Discharge of sediment-laden water to UNT of Whitelock Creek. Whitelock Creek is a protected stream designated as Cold Water Fishery.

Sediment-laden water that has been pumped from the bore trench is discharging to Whitelock Creek
The sediment-laden water is pumped from the bore trench to filter bags and hay bale dewatering structures. The structures are innundated with sediment and it does not appear that the filter bags are installed properly.
Sediment-laden water that has been pumped from the bore trench is discharging to Whitelock Creek
The sediment-laden water is pumped from the bore trench to filter bags and hay bale dewatering structures. The structures are innundated with sediment and it does not appear that the filter bags are installed properly.
Sediment-laden discharged from the Pipeline Right-of-Way into an tributary of Horton Creek and impacted both Horton Creek and Oxbow Creek. Both are designated as Cold Water Fisheries.
Sediment has innundated the filter fence and caused sediment-laden water to overlow off the LOD. Lack of maintenance on the existing controls and a lack of temporary stabilzation antagonized the conditions.
Sediment has innundated the filter fence and caused sediment-laden water to overlow off the LOD. Lack of maintenance on the existing controls and a lack of temporary stabilzation antagonized the conditions.
Sediment-laden discharged from the Pipeline Right-of-Way into an tributary of Horton Creek and impacted both Horton Creek and Oxbow Creek. Both are designated as Cold Water Fisheries.

102.4(b)(1)
102.4(b)(1)

Accelerated erosion on fill side of well pad. Improperly built road allowed upgrade runoff to drain directly onto pad. Poorly constructed surface water diversion used upgrade of pad and pit.
Soil from fill side of well pad eroded and breached the piled brush downgradient of well pad. It was transported by heavy rains into drainage ditches created by the former surface mine. Soil and sediment were then discharged to an unnamed tributar
Soil from fill side of well pad eroded and breached the piled brush downgradient of well pad. It was transported by heavy rains into drainage ditches created by the former surface mine. Soil and sediment were then discharged to an unnamed tributar
Accelerated erosion on fill side of well pad. Improperly built road allowed upgrade runoff to drain directly onto pad. Poorly constructed surface water diversion used upgrade of pad and pit.
Bung from brine tank was removed and valve was opened spilling crude oil and brine to ground.

Operator did not submit monthly totals brine spreading. eFACTS does not have proper violation as written on the NOV. The actual violation is SWMA 302 but falls under the 301 code.

discharge of polluting substance to the ground
Site was constructed before waiver was granted.
Violation noted by John Sengle on 2/25/2011documented as corrected by Sam Jones inspection of 3/4/2011.

This is for 2 separate violations. One being the failure to prevent accelerated erosion. The second being the failure to implement the BMP by installing silt sock with rebar instead of 2 x 2 wood stakes.
Spilled a pollutional material with potential to impact waters of the Commonwealth. Materials include Drill mud/drill cuttings and Hydraulic Fluid. Workers were emptying and cleaning several Frac tanks on the pad.
Failed to provide secondary containment while working with pollutional materials which resulted in a release to the pad surface.

See Insp ID 2005443, past viols closed, MBC eFACTS data clean-up 5/13/15.
Violation citation should be 35 PS 6018.610(1) for allowing the deposition of waste without a permit.
See Insp ID 2005443, past viols closed, MBC eFACTS data clean-up 5/13/15.

For failure to implement the BMPs and prevent accelerated erosion.

Access road, E side, rock-lined ditch. Toward base of road, ditch broken and extends into another erosion feature, perhaps a pre-existing ditch or intermittent stream. Erosion feature is choked with gravel and sediment from the road. E&S BMPs no
Gravel and sediment are choking ditch that moves of f to the west toward a stream that flows south. Stream located off western boundary of the site.
Gravel is piled up on the site boundary. Appears to have been scraped of the road.
muddy water coursing down the west side gully to the access road was entering UNT
Follow-up from inspection on 10-26-11. Erosion and sedimentation controls not in place on gully to west side of access road, approx 1000' long.
Erosion is not being minimized on east side of access road near top of hill.
Failure to maintain -- this citation is consistent with the inspection form. Culverts are blocked with sediment. There is a growing erosion feature coming from the edge of the rock apron.

RTPT inspection conducted on 1-4-17; inspection result of NOVIO due to site inspection indicating culvert has been replaced. eFACTS violation resolution reason: CRCTD

Chapter 78.57(a)

IR# 1987470

Violation was corrected and closed March 2010 (see ID #1866966). TLT

GP-7 Minor Road Crossings permit (#GP7 59 29 10 02) issued on 3-5-2010. TLT

Frac out of driling mud while boring under McCracken Hollow for PL110. Drilling mud discharged into McCracken Hollow (EV). Discharge had ceased/remedial actions taken and stream was running clear at time of my inspection. TLT
Viols to be closed - pipeline construction completed, ESCGP (ESX10-015-0012) terminated on 12/2/2013
Viols to be closed - pipeline construction completed, ESCGP (ESX10-015-0012) terminated on 12/2/2013

Bentonite discharges during boring. Admin file review shows cleanup activities were completed. Viols & NOV closed, SCM 4/1/2015

sediment from pumping of trench
bentonite release

Failure to maintain E/S control
Sediment discharge to North Fork Tomb's Run

102.4(b)(1)
102.4(b)(8)

Silt fence incorrectly installed
RCE not maintained

6018.301

Sediment traced from pipe line to wetland below.

Bentonite discharged into stream

Sediment discharge from site
Erosion on banks and failure of silt fence.
About 1300 gallons of Bentonite made its way to a dried up creek bed from a mud to surface eruption.

Loss of return occurred week of 7/18/11 - 7/22/11. Bentonite and additives were discharged to groundwater. Spring used as a water supply was impacted by discharge. TLT
For stream crossings this violation is closed. For lack of stabilization on the rigth of way, there is still violations.
Site still had problems, particularly on sloping right of way and at staging area, but stream crossings are matted and protected with silt sock as specified in the E&S plan. There is also additional sock in place.
NOV response recd 8/29/2011, admin file review shows no continuing issues. Viols will be closed. 4/3/15 SCM
NOV response recd 8/29/2011, admin file review shows no continuing issues. Viols will be closed. 4/3/15 SCM
102.4(b)(1). Sediment eroded during rain event and breached perimeter BMP's where silt sock and silt fence adjoined. By the time of my inspection, new courses of sock and fence had been installed and reinforced with staked hay bales.
Clean Streams Law 401 for sediment discharge into UNT to Dantz Run. Sediment eroded from pipeline ROW and entered stream. Sediment was observed on the substrate in several spots approximately 75 feet downstream from discharge point.
Company submitted documentation of corrections made, 11/8/2011
Company submitted documentation of corrections made, 11/8/2011

Bentonite into E. Br. Sugar Works Run.

102.4(b)(6)
Discharge of ~200 gallons of bentonite into tributary of Sugar Creek @ pipline location 68+00 - 70+25

Boring start location. Excessive run-off occuring from site. Silt fence undercut and overwhelmed.
IART (Bentonite) discharge into Second Fork of Larrys Creek
For pipeline between Township road 537 and Houseweart pad - grass not growing on pipeline, soil pile not adequately stabilized, culvert inlet E&S not working, culvert outlet silted up.

Ripple Brook Road. Insufficient to no temporary stabilization. No activity.
SR292 Site. Between SR292 and Ripple Brook Road there is no activcity and no temporary stabilization. South of SR 292 the site is being worked.

Failure to implement: Silt sock improperly staked in -- many stakes can be pulled out by hand. This causes failure so that muddy water running out of E&S in many locations.
Abundant signs that sediment has gotten into creek or wetlands near site, but not seen actually happening. Heavy rains make it impossible to trace back sediment to a particular source. But potential is apparent.
Muddy water moving off temporary staging area, onto road, into culverts and into stream.
At stream crossing #3, filter bag located on a hill above the stream. muddy discharge traced to within 75' of stream. Filter bag location contrary to BMP and offers potential to pollute.

Conditions at site -- large amounts of fluid natural mud and bentonite mud present the potential to pollute Larry's Creek in the event of substantial rain.
Conditions -- deep fluid natural mud and bentonite mud offer potential to pollute in the event of heavy rain.

Discharge of sediment into Brown Creek.
Discharge of sediment into brown creek.

Potential for further discharge of sediment to wetland.
Waltz Wet A -- discharge of sediment into the wetland.
No E&S along boundary of wetland crossing to keep sediment out of wetland.
102.4(b) Failure to follow written E&S plan. Exhibit A calls for filter socks to be installed at easch edge of wetland. This was not done. BMP 4 and 4 a call for signs saying, "No fueling within 100' of the wetland boundary". These were not observed.

muddy stream bed where trenched. Immediately corrected.
102.4(b)(2) Failure to follow written plan. The plan specifies returning the substrate to previous conditions. Instead trenched area was mud on several streams. This was immediately corrected when brought to the attention of the co.'s environ. inspe

IR of drill mud into Redstone Creek
IR of drill mud into Redstone Creek
Spring/seep water discolored by drilling mud entered ditch by side of road approx 600' North of bore location and traveled through a culvert and into UNT to Millstone Creek. Also discharge from base of access road to the south. Also addressed.

Inadvertent Return. 100 gallons
Inadvertent Return
Inadvertent Return
Material from pipeline slipped into Durrell Creek on or about 3/1/12. AMS reported the slip and is working with DEP to address the issue. Violation cited because substantial sediment load into the creek.

Sediment discharge from stream bed of UNT to Wallace Run (EV) caused by pipeline construction
