

## Notice of decision to grant consignment number for trackable waste to be transported into Queensland

**Enquiries:**  
GPO Box 2454, Brisbane QLD 4001  
Telephone: (07) 3330 5677  
Fax: (07) 3330 5634  
Email: waste.track@ehp.qld.gov.au

Under Section 81X(4) of the *Environmental Protection Regulation 2008* authorisation is issued for trackable waste to be transported into Queensland to:

Origin Energy Resources Limited  
339 Coronation Drive  
Milton QLD 4064

The following Consignment Authority number is issued under s81X of the *Environmental Protection Regulation 2008* and is to be used on the relevant waste transport documentation. The Consignment Authority number is valid only according to the details provided on the application form for consignment authority, amended and resubmitted on 11<sup>th</sup> November 2016, for the transport of the waste to WestRex Services located at 40742 Warrego Highway, Jackson QLD 4426.

| Consignment Number(s) | Valid from | Expiry Date | Generator  | Waste Type   |
|-----------------------|------------|-------------|--|--|
| 84-16-0872            | 14/11/2016 | 30/06/17    | Origin Energy<br>NT Portion1079, Volume<br>786, Folio762 | D300 – Hydraulic fracturing flow back<br>fluid from a shale exploration well |

In arranging for the transport and receipt of this waste, the holder of this authorisation should note the following:

- transport of the waste must comply with the Australian Dangerous Goods Code - 7<sup>th</sup> Edition, administered in Queensland by the Department of Transport and Main Roads;
- any activities which could lead to environmental harm in Queensland are prohibited by the *Environmental Protection Act 1994*;
- the transporter contracted to carry the waste in Queensland must be licensed to carry the regulated waste as nominated above under the provisions of the Queensland *Environmental Protection Regulation 2008* or similar interstate legislation;
- the waste is to be accompanied by a correctly completed Interstate Waste Transport Certificate from the state the waste originated to meet the requirements of s81M – s81P of the *Environmental Protection Regulation 2008*; and
- the waste(s) must meet the waste acceptance criteria of the facility receiving the waste.
